Message from the Vice Chancellor :

There is an old English saying : *A man without a goal is like a ship without a rudder.* The same is applicable in case of an educational institution. An educational institution has a life of its own. This life trajectory needs a careful planning and its proper implementation. Krishna Kanta Handiqui State Open University during its twelve year long journey that started in 2006 has gathered a series of experiences. These experiences accumulated over this period has strengthen our commitment to deliver education crossing every barrier to all the eligible members of the society. This enrichment yields certain results which need extensive scrutiny on our part. With this view under consideration, we have prepared a list of objective in this financial year. In the light of our current understanding of the functioning of the University and educational scenario of this region, we have formulated three missions :

1. Mission Digitalization
2. Mission Examination
3. Mission Administration

These three missions show our deep commitment and a desire for enhancing our skills to make our system more efficient and effective. In order to bring transparency and dynamism to our current functioning we are determined to act in accordance with the guiding principles formed under these three missions.

A university doesnot stand alone. It has to depend on several factors for its survival and impressive presence. It has to consider a number of socio-economic factors before delivering desired results and framing policy formulations for the general welfare of the learner community. Our learner base is diversified and they come from different sections of the society. Therefore it becomes the moral duty of the university to serve their needs as soon as possible. Our three missions framed in the above context desire to address all the issues of the university and the learner community for delivering

quicker and effective results. A glance at the table of contents will reveal that we have made every effort and a new series of exercises to build up an error free and transparent design for our coming days. We sincerely hope that our efforts will stand as work of inestimable value. We believe in diversification of resources and building up of a strong

institutional commitment that may be turned as the ideological reflex. This journey of 365 days will certainly allow us to agree on certain points and disagree on certain other which we consider as trival. However we strongly believe in constructive dialogue and our three missions are instances of a departure for introducing positive changes.

Multimedia Production Unit

The Multimedia Production Unit (MPU) performs various activities by amalgamating different forms of media in the teaching-learning process. In the age of information technology, learners look for more innovative ways to learn rather than relying on the conventional modes of education. Being an open and distance learning university, KKHSOU provides the scope and environment of flexible mode of learning to the learners by means of various audio-visual educational program through University's web-portal and YouTube. In a flexible mode of education, it is important that the learners do not experience any form of communication teachers and the learners. Hence, these new modes of educational technology suffices such a requirement and the MPU of the University has taken a step to cater this need of the learners.

Initiatives of MPU

- a) *Ekalavya*: The MPU produces the weekly educational audio programme named -'Ekalavya', which is being broadcast by All India Radio, Guwahati and Dibrugarh simultaneously every Saturday from 8 to 8.30 pm. This is one of the most popular programmes that receives feedback from its regular listeners. In the academic year 2017-18, this unit produced a total of 53 educational programmes including lectures on Art, Culture, Education, Social Science, Geography, Political Science, Agriculture, Environmental Science, Library Science, Sports etc.
- b) *Radio Phone-in Programme*: It is an innovative learner support service provided by the University for the better understanding of the issues related to the functioning of the University through its Study Centres. The main objective of the phone-in programme has been to answer the queries of the distant learners, as well as, the public with regard to the University's activities and programmes. The three live-phone-in-programmes are namely-
 - Live Phone- in programme every Thursday through AIR from 9:15 to 10:15 a.m.
 - Regular Live phone-in programme by Community Radio, KKHSOU from 4 to 5 p.m.
- c) *Audio Programmes*: The unit also produces different academic programmes in accordance with the University's curriculum for the benefit of the learners. Faculties from the University, as well as, different institutions participate in the programme to present a talk on a particular subject. Most of these programmes are in the form of a talk or discussion. More than 800 audio programmes have been produced till date and are available at the unit and the University's website.
- d) *Video Programmes*: In accordance with the audio programmes, a number of programmes are also produced in the video format. Noted academicians, journalists, faculties, social workers, researchers, writers, film makers etc. are invited to the University's studio to present their discussions on various socially relevant topics. Apart from this, the team of MPU collects information on the tradition, culture and ethnic communities of this region and

accordingly archives it in video form. Also some of the memorable events archived by the MPU in this academic year are:

The Centre is involved in the university's wide efforts towards developing ICT, Faculty, Learners' Support System, Examination reforms etc.

As per the requirement of the UGC guidelines, the University has formed a CIQA Committee to govern the overall activities of CIQA. Prof. N.N. Sarma, has joined as full time Director of CIQA on 1 December 2017. The CIQA has prepared a detailed Annual Plan for the year 2018 encompassing the following activities:

- e) Preparation of Statistics
- f) Feedback Collection, Dissemination and Follow up
- g) Programme Effectiveness Research

i) Adoption and Development of MOOCs

j) Quality Improvement Workshop

Various activities of CIQA are being conducted as per the Action Plan of CIQA. The thrust in the last quarter of the year 2017-2018 was mostly on examination reforms.

Examination Monitoring:

Krishna Kanta Handiqui State Open University has attached top priority with regard to examination reforms in the year 2018. Maintenance of sanctity in the conduct of examination is an important aspect for the credibility of any educational system. Keeping this in view, the CIQA office has focused on monitoring the examination centres of KKHSOU while working to improve the efficiency of the examination centres. The officers and faculty members of the University are deputed as Examination Monitoring Officer for 100% coverage of examination centres of KKHSOU to monitor the compliance of the Standard Operating Procedures (SOP) and also to oversee the measures adopted for the smooth conduct of the examination processes. As the University has decided to attach special importance on examination reforms in 2018, the measure is expected to contribute towards accomplishment of the mission of examination reforms of the university.

BANIKANTA KAKATI RESEARCH INSTITUTE

Research and Development is an important dimension of a University's academic pursuits. An academic organisation remains incomplete in the absence of proper research activities. Keeping this in mind, the University has set up a research wing dedicated to social science research with special emphasis on area studies. The Institute has been named after great scholar Dr. Banikanta Kakati as Banikanta Kakati Research Institute (BKRI).

Activities and Programmes of BKRI :

Lecture on the Philosophy of Nobel Laureate Kenneth Joseph Arrow : Banikanta Kakati Research Institute of KKHSOU organised a lecture on the philosophy of Nobel Laureate Kenneth Joseph Arrow at Sudmerson Hall, Cotton University on 9 May 2017. The lecture titled "*Kenneth Joseph Arrow's Legacy in Contemporary Economy and Public Policy*", was delivered by Dr. Gautam Mazumdar, Associate Professor, Department of Economics, Cotton University (formerly Cotton College), Guwahati. Dr. Mazumdar, in his lecture, while elaborating the ideas of Kenneth J. Arrow stated that the main thrust of the Economist was on the question of how social welfare functions could be formulated. Significantly, Arrow shared the Nobel Memorial Prize in Economic Sciences with British economist, John Hicks in 1972 for their fundamental contributions to the general equilibrium theory. Professor Abu Nasar Saied Ahmed, Honorary Director, Banikanta Kakati Research Institute, delivered the welcome address on the occasion. The lecture was attended by key officials and faculty members of KKHSOU and other interested members of

the teaching and student community. The lecture was followed by a stimulating interactive session which saw the active participation of the audience.

Banikanta Kakati Memorial Lecture: Banikanta Kakati Memorial Lecture was organised at Sudmerson Hall, Cotton University on 15 November 2017. The Memorial Lecture entitled "Paradigm shift in Intellectual History and Banikanta Kakati" was delivered by Prof. Ranjit Kumar Dev Goswami, Head of Srimanta Sankardeva Chair, Tezpur University. In this well attended Programme, Prof. Goswami highlighted the paradigm shift in Assamese Literature, and other writings initiated by Banikanta Kakati. He contended that prior to Dr. Kakati there was no credible evidence on the writings of Assamese scholars and litterateurs on the issue of caste prejudices. Dr. Kakati's writings later on influenced the succeeding generations of writers and scholars to deal with the problems of social inclusiveness in the larger Assamese society. Herein lies the intellectual paradigm shift in the thinking and writings of a majority of the short story writers, novelists and dramatists, in addition to other intellectual figures hailing from the state.

The talk was followed by a lively interactive session in which many young and senior scholars participated.

One Day Round Table Discussion: A One Day Round Table Discussion titled, "Alternative Paradigm of Living with Flood", was held on 4 March 2018, in the premises of Indian Institute of Bank Management, Khanapara, Guwahati. The event was inaugurated by Dr. Hitesh Deka, Vice Chancellor, Krishna Kanta

Handiqui State Open University, with a brief opening remark. The discussion was organised by Banikanta Kakati Research Institute, under the auspices of Krishna Kanta Handiqui State Open University. Three eminent speakers- Prof. Abani Kumar Bhagabati, Prof. Arup Kumar Sarma, and Prof. Jogendra Nath Sarma, presented their research papers on the issue. In addition, the speakers shared the view regarding the fact that floods are inevitable; therefore, the need of the hour is to respect nature, and adopt a pro-active approach to solve the problems of flood. The experts argued that dredging, construction of embankments can never be a permanent solution to this problem.

Prof. Abu Nasar Saied Ahmed, Honorary

Director, BKRI, delivered the welcome address on the occasion. The talk was followed by a lively interaction in which many young and senior scholars participated. Three members of Asam Sahitya Sabha – Chandan Sarmah, Pradip Pujary and Bipul Deuri, also expressed their views on this topic.

Publication by BKRI :

Five occasional papers were published by Banikanta Kakati Research Institute in the month of January, 2018. The contributors are- Dr. Rekha Borthakur, Prof. Md Waji Ullah, Sakib Mahmud, Prof. Abu Nasar Saied Ahmed, Gargee Sharma and Daalima Goswami.

1. **Media Fellowship programme:** UNICEF Assam initiated a 'Media Fellowship programme' in 2016 to promote ethical and responsible coverage on adolescent and child rights issues. A media network on ethical reporting was also formed. In the year 2017, the partnership strengthened with Krishna Kanta Handiqui State Open University and UNICEF with an increased focus on sensitising media persons on reporting adolescent and child protection issues. The Bhupen Hazarika School of Mass Communication of KKHSOU has co-ordinated the entire initiative. The project entitled as 'Media Network for Ethical Report on Children and Adolescent' started from March 2017 to November 2017.

With the initiation of sensitisation workshops and the media fellowship programme there has been an increase in ethical reporting on children's issues. This year, the focus was on strengthening the existing network of ethical reporters and reaching out to district level media persons.

The main objectives of this was to support and strengthen the environment with regard to reporting on children and adolescents in the State, to improve the quality and volume of stories on adolescents/children in daily news coverage in Assam and to promote ethical and responsible journalism especially on issues of adolescents and children in the State.

2. **Experiments in Adolescents participation:** The project entitled 'Experiments in Adolescents participation' started from 1 April 2017 to 31 December 2017. This initiative was supported by UNICEF Assam and

Kasturba Gandhi National Memorial Trust (KGNMT). They were identified to take initiatives for the field level activities. The main activities in which they were responsible, were related to reporting and street drama by adolescent groups.

The community radio initiative was conducted by 'Jnan-Taranga' - KKHSOU's community radio platform. This gave an opportunity to strengthen community participants with a focus on adolescent rights and on issues like child rights, child protection, child labour, WASH and child mortality.

3. **Awareness Generation through Community Radio-Developing and Disseminating Community Learning Programmes (CLP):** This project was on "Landslide Risk Mitigation Activities by Community Participation" through multiple stakeholders in different landslide vulnerable areas of Guwahati. This is the pilot initiative of Assam State Disaster Management Authority, Govt. of Assam to reduce landslide vulnerability in Guwahati through awareness dissemination programme and community sensitisation through a multi-stakeholder approach.

Some basic mathematical methods consisting of magic numbers, elementary mathematics, algebra, etc. are used so that the local people understand and enjoy learning mathematics.

COMMUNITY RADIO STATION (CRS) :

With the motto of providing a voice to the voiceless, KKHSOU launched the first Community Radio Station of North East India christened as 'Jnan Taranga' at 90.4 FM on 28 January 2009. The broadcast schedule consists of 8 hours live, which starts from 9 a.m. till 5 p.m. The live transmission consists of programmes on health, environment, and life of great persons along with birthday greetings, recipes, beauty tips and some other community development programme. Educational broadcast is for one-hour every day and aims to reach out to different sections of the society, so that everyone gets an opportunity to forward their opinion.

Some of the contents of the various community programmes include voices of the community, their issues, culture, education, entertainment, etc. One of the most popular programme '*Monor Khabor*', a regular one hour live Phone-in programme, which is broadcast from 4:00pm to 5:00pm is based on different social issues of the community.

Another initiative that is undertaken by the radio station is collaboration with organisations like UNICEF, National Skill Development Committee and Disaster Management of the state. PUBLICATIONS

In continuation with the spirit of publication inherent in the university structure, we have been trying to develop and channelize our publication process for the greater benefit of all the concerned parties. An open university has certain advantages over the conventional university. It is quite natural for an open university to design publication programs to cover several hitherto untrodden areas. Krishna Kanta Handiqui State Open University, with its working paper publication module develops a strategy to address issues of abiding interest. It includes formulation of several ideas comprising several issues that need our intellectual interpretation and appreciation of critical strength. Our working paper module concern itself with energy conservation in domestic front, an understanding of international diplomacy through India's handling of nuclear supply dynamics, a journey into the nature of knowledge as deciphered in philosophy and science, consumer preferences and actual possession in durable goods in their global context, a managerial reinterpretation of Maniram Dewan using tools of contemporary management studies with a strong emphasis on its historical context, the growing significance of Indian English Fiction with a stress on its emergence and impact. This working paper module is the reflection of the philosophy of free flow of ideas across various strands of thought. The broad areas of discussion, therefore, are an indicators of our commitment to enhance knowledge in an interwoven world of multiple dynamics.

The University has published a series of Working Papers–
