IV. PROJECT PROPOSAL FORMULATION

Most of the professional programmes have a project work which provides an opportunity for the learners to implement the theoretical knowledge gain throughout the whole program. It is to be carried out with due care and should be executed with seriousness by the candidates.

TYPE OF PROJECT

The types of the project means - the learners are suggested to choose a topic or field which have some direct relevance in day-to-day activities or real life problem solving. It is not mandatory for the learner to do their project work on real life problem solving. **The project work should compulsorily include the software development.** A list of selected area for developing the project work is given at section V(B).

PROJECT PROPOSAL (SYNOPSIS)

The project proposal or the synopsis is the frame work for carrying out the project. It should be prepared in consultation with Guide. The necessary parts of a project proposal is given in the following form :

- * Title of the Project.
- * Introduction and Objectives of the Project.
- * Project Category (RDBMS/OOPS/Networking/Multimedia etc.).
- * Tools / Platform, Hardware and Software Requirement specifications.
- * Whether the project is done for any Industry/Client? The Name and Address of the Industry or Client is to be mentioned.

V. PROJECT REPORT PREPARATION

1. A Project Report should include the following items :

- * Introduction
- * Objectives
- * Tools/Environment Used
- * Analysis Document (This should include SRS i.e., Software Requirement Specification in proper structure based on Software Engineering concepts, E-R diagrams/Class diagrams/any related diagrams (if the former are not applicable), Data flow diagrams/ other similar diagrams (if the former is not applicable), Data dictionary)
- * Input and Output Screens
- * Limitations of the Project
- * Future Application of the Project
- * Program code (Complete code in such a way that it includes complete error handling, passing of parameters as required, placement of procedure/function statements as needed.)
- * Bibliography

Learners have to attach the code compulsorily. The project report should be hard bound; should consist of a contents page; all pages of report should be numbered; content should be well organized in a meaningful manner; printouts of text & screen layouts should be original and should not be Xeroxed)
