PROGRAMME PROJECT REPORT

BA Programme in Assamese

1. Programme's Mission and Objectives:

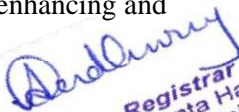

The motto of Krishna Kanta Handiqui State Open University (KKHSOU) is *Education beyond Barriers*, keeping this idea in mind we are offering BA in Assamese (Major) by the Department of Assamese, under the Padmanath Gohain Baruah School of Humanities. As Assamese is the state Language of Assam, KKHSOU has given emphasis in this programme. Literature and society are in a state of continuous mutual dependence which propagates itself like a chain reaction. This means not only that they influence each other, that society is modified by the art whose product it is. Literature is a record of social experience, an embodiment of social myths and ideals and aims, and an organization of social beliefs and sanction. This is the main mission of this programme. It should be mentioned here that this programme has been thoroughly revised in accordance with the UGC Regulations on Open and Distance Learning, 2017. Syllabi of this Programme have been finalized after a series of deliberations and discussions with academic experts in the respective field.

The main objectives of the programme are as follows-

- i. To give the learners a clear view of the history and present trends of Assamese literature, language and culture.
- ii. A thorough understanding of one's first/second language helps an individual to establish his first/second language in the greater scenario of language and literature of the world and he can also learn other languages easily. Assamese is the first/second language of most of the people of Assam and one of the official languages of this region, therefore our university has introduced Assamese as a discipline in the BA programme.
- iii. Those who are interested in the field of creative writing, they will get an adequate support by getting enrolled in this programme.
- iv. This programme will help learners for advance study and research in Assamese literature, language and culture.
- v. Injecting in to the mind of the learners proper awareness of latest issues of Assamese Literature and culture in a comprehensive manner

2 Relevance of the Programme with KKHSOU's Mission and Goals:

The B.A. Programme in Assamese offered by KKHSOU has been prepared conforming the mission and goals of KKHSOU. As we know that the goal of the Department of Higher Education, MHRD is to expand the Higher Education sector to increase the Gross Enrolment Ratio (GER) in Higher Education to 30% by the year 2020. Open Universities of the nation have been playing a vital role in this regard. In Assam KKHSOU is the one and only State Open University and it can cater toward fulfillment of this goal. In common, people prefer for the medium they know and understand best, that is their first/second language. Most of the people in Assam uses Assamese as their medium of communication as first/second language. As a result, the total enrolment in Assamese is high, which goes a long way in enhancing and achieving the target of the GER in higher education.

4. Appropriateness of Programme to be Conducted in Open and Distance Learning Mode to Acquire Specific Skills and Competence:

The BA programme in Assamese is basically theoretical and therefore, is, in general, suitable for the ODL mode. Keeping in mind the goal of the Department of Higher Education, MHRD to increase the Gross Enrolment Ratio (GER) in Higher Education, the ODL mode of education can play a major role in this regard. We have already stated that Assamese is the first/second language of this region; therefore, BA in Assamese programme may be

considered the best choice for this goal. As we know that learners are the top priority of any educational system. KKHSOU has also given importance on learner-centric education. In this connection, BA in Assamese programme has been designed in such a way so as to facilitate learners to participate actively in teaching-learning process. These can be stated as follows –

4.1 Study Centres: Study centres are the backbone of an open and distance learning institution. On behalf of the university, the study centres cater to the various requirements of the learners, viz. admission related information, delivery of SLM, conducting counselling sessions, distribution of assignment and its evaluation, conducting term end examination etc. The study centres scattered throughout the state look to these affairs on behalf of the University.

4.2 Pre-enrolmentCounselling: With the help of study centres,the university would conduct pre-enrolmentcounseling to motivate learners towards ODL and also our University. It provides basic knowledge of the different programmes, counseling sessions etc. with relation to KKHSOU.

4.3 ICT Support: ICT support is a major component of any ODL system of education. Our university has as such given emphasis on this. Some ICT-based support systems provided by the university for the learners of BA in Assamese are listed below:

The website also includes the customised study centre-search facility based on district or programme. And most of the Audio-Video programmes are also made available online through YouTube.

4.3.2 Community Radio Service: Jnan Taranga (90.4 MHz) of KKHSOU is the first Community Radio of the North Eastern part of the country. The Community Radio, being a platform for the community for taking up community issues, is also a platform to broadcast several educational programmes that includes debates, discussions, and talk shows.

4.3.3 Ekalavya: With the help of Prasar Bharati, our University has launched a special educational programme namely **Ekalavya**. It is aired every Saturday from 8.00 PM to 8.30 PM through All India Radio, Guwahati and Dibrugarh.

4.3.5 e-SLM:An e-learning portal by the name of e-SLM(<http://eslm.kkhsou.in/>) has been launched by the university. It is also a digital repositorywhere the study materials are uploaded for the benefit of the learners. All the study materials of the programmes(including Degree, Master Degree etc.) can be assessed in this portal.

4.3.6 Open Access Journals Search Engine (OAJSE): To provide easy access to various open access journal across the world, KKHSOU has developed the Open Access Journals Search Engine (OAJSE) which is available for the users from the URLwww.kkhsou.in/library/oajse or<http://oajse.kkhsou.in> .

4.3.7 KKHSOU Mobile App: Our University has developed a mobile application “KKHSOU” to help the learners to connect 24x7 with the university. It canbe freely downloaded from Google Play Store (for android user).

4.3.10 TV programme: University is going to initiate a half an hour live educational programme through a TV Channel **Prag-News** from June 2018. It will be telecasted every Sunday at 8:30am.

This would enable the learners to imbibe the required knowledge and skills to seek avenues in employment, to go for higher studies and to know about the subject in an in depth manner.

5. Instructional Design:

5.1 Curriculum Design: The revised BA in Assamese programme has been designed in such a way that it meets the standard of any another university, those offering the same programme. In case, a learner is not able to qualify a course in the first attempt, he/she will have to qualify in the particular course within the next four attempts, subject to maximum duration of the study.

5.7 Faculty and Support Staff Requirement: The University currently has 3 full time faculty members in the Department of Assamese, viz., one Professor and two Assistant Professors.

5.8 Instructional Delivery Mechanisms: The Self Learning Materials have been prepared keeping in view of the requirements of instructional design. Particular attention has been given so that the basic three domains of knowledge, viz., behavioural domain, cognitive domain, and constructive domain can be addressed. Generally we offer printed SLMs and audio-visual format. Presently we are thinking about 20% of the entire programme will be in MOOC format. Attempts are made to make our SLMs well designed which are written in lucid language and are self explanatory. All units consist of some major keys, viz **Learning Objectives** (stated major objectives of the unit), **Introduction** (here we link up with previous unit and provide general introduction of the content), **Check Your Progress** (generally after every section to gauge their understanding), **Answers to Check Your Progress** (provides answers of CYP), **Activity** (if necessary we incorporate activities for enhancing learners' critical outlook), **Let us Know** (if necessary we provide some important information related to the content in a box), **Let us Sum up** (here we provide pin pointed summary of the units), **Further Reading** (this section has been incorporated for those learners who are interested in advance knowledge of the content), **Model Questions** (Different type of questions have been provided in the unit. Basic motto for this exercise is to

judge the learners capability of understanding the content of the unit and help to enhance their writing skill). For each course assignments are being given for continuous assessment of the learners.

5.9 Identification of Media: All the learners are provided with Self Learning Materials, which are comprehensive in terms of contents in the syllabi. These learning resources are prepared with the help of resource persons across the country. Senior Professors from different Universities of the region are engaged as Editors of the SLMs. Apart from printed SLMs, our university has adopted various modes of instructions to facilitate learners to participate actively in teaching-learning process which are stated in the above.

The newly constituted CIQA office as per UGC guidelines and the office of the Academic Dean would upload the Academic Plan and month wise Academic Calendar to enable the learners to plan their studies and activities accordingly.

6.2.2 Self-learning Materials (SLM): Our SLMs are designed in such a way that learners can easily follow them. With the help of subject experts, we prepare the SLMs with relevant and up to date information and facts.

6.2.3 Multimedia Materials: Apart from printed SLM our university provides audio-visual learning materials related to course content. Generally, CD's and DVD (ppt. pdf. format) are provided. Audio materials are supplied to those learners who are visually impaired

6.2.4 Counselling Sessions: Counselling sessions are conducted by our Study centres. Basically all counselling sessions are conducted on Sunday. During the counselling session face-to-face mode of interaction between the learners and counsellor take place.

This enables the learners to clear doubts with regard to various courses provided to them. Generally, 15 counselling sessions take place for a course in each semester.

6.3 Evaluation:

- i. The University adopts both ongoing and term-end evaluation. Ongoing evaluation is conducted in two modes: internal and external. The internal evaluation is to be undertaken by the learner himself. For this, the University has designed some Check Your Progress Questions in every unit of SLMs, which would help the learners to self-check his progress of study. However, this is undertaken at the learners' end themselves and is non-credit based. External method is through home assignment.
- ii. For each course assignment has been given for continuous assessment of the learners. Assignment should be hand written and it should be submitted timely in the study centres. In the term-end examinations, 20% weightage comes from the assignments and 80% from the written examination. Non-receipt of assignments in time may lead to withheld of final result. The learners have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres evaluate the assignments and return them to the learners with feedback.
- iii. The University conducts term-end examination once for odd semesters and once for even semesters in a year. The learner can take the examination only after the minimum period prescribed for the course of study. Questions for the Semester End paper would be set as per the Evaluation policy of the University to have coverage of all the modules of the respective courses.
- iv. Examination schedules indicating the date and time of examination for each course is sent to all the study centres in advance; the same is also notified in the university website. Mobile app is also used to send SMS alerts to the learners.
- v. Learners would be able to get their scripts re-evaluated if they are not satisfied with evaluation.
- vi. The University is in the process of using high security and eco-friendly synthetic (water proof and termite proof) papers for marksheets and certificates. Moreover, uses of interactive kiosk at study centres for continuous and effective interaction with learners and also for issue of admit card, biometric identity of learners and modification of existing EDPS system for quick publication of results of examinations are also being planned.

7. Requirement of the Laboratory Support and Library Resources:

The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee is helped by the in-house department faculties while preparing the framework of the programme.

- ii. The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of 15 units) to the assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.
- iii. The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- iv. After writing of the units with format editing, are sent to the Language Editor, who then looks into the contents of the material written and give their necessary suggestions to be incorporated by the coordinator of the particular programme. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.
- v. The newly constituted CIQA Office is planning to conduct stakeholders meeting; SLM and Counselling Workshops which is expected to provide the University and the Department with required inputs for quality enhancement.
- vi. In order to keep the programme updated, the programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

Term end examinations are conducted on scheduled dates at selected examinations centres. Evaluations are done by the external examiners at zonal centres. 9 QUALITY ASSURANCE MECHANISM AND EXPECTED PROGRAMME OUTCOMES

9.1 Quality Assurance Mechanism: With regard to the quality concerns of the course materials, the department of Economic is involved in the following activities:

- (a) The programme design and structure are decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee is helped by the in-house faculty members of the department while preparing the framework of the programme.
- (b) The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of 15 units) to the assigned authors. The in-house faculty members prepare a carefully chosen list of authors for the task. The faculty members also contribute their writings, besides the outsourced authors who are mostly research scholars and faculty members from other higher educational institutions.
- (c) The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units, and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- (d) Since the BA programme in Economics (major) is prepared in a bi-lingual format, the units post content editing are then sent for Assamese translation to a select list of

outsourced translators. After which, the materials are sent to the Language Editor, who then looks into the contents of the material written in Assamese, and give their necessary suggestions to be incorporated by the coordinator of the particular programme. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements are made to distribute the SLMs to the learners at the time of admission.

- (e) The newly constituted CIQA Office is planning to conduct stakeholders' meeting; SLM and Counselling Workshops which is expected to provide the University and the Department with required inputs for quality enhancement.
- (f) In order to keep the programme updated, the programme would berevised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2Expected Programme Outcomes: The outcomes of the programme are manifold:

- (a) It will enable the learners to acquire knowledge further enabling them to articulate well the condition around them.
- (b) The programme will also help the learners to seek employment avenues in the development sector and/or other upcoming sectors like banking, insurance and other service sectors.
- (c) The programme will also encourage the learners to go for higher studies.
- (d) The programme will enable the learners to engage with the society in a fruitful manner leading to the welfare of all and thus contribute to the betterment of the society.

The contents therefore, offer theoretical understanding on various issues emerging in the society at regional, national, and international levels. It attempts to clear the understanding of the past societies and the changes brought in by various factors and their interrelationships. The programme attempts to enable the students to develop proper methods of articulation and deliberation thus preparing the students for their future prospects in pursuing higher studies, or engage in research, or for any other professions. The relevance of the discipline lies in its constant questions/debates over the interpretation of events, concepts etc and the attempt to find answer using inter-disciplinary approach. By doing so, it not only enriches the discipline, but the society too and it also awakens the mind of the learners.

3. NATURE OF THE PROSPECTIVE TARGET GROUP OF LEARNERS:

With its motto "*Education beyond Barriers*", KKHSOU specially strives to provide quality education to the learners from all sections of the society transcending the barriers of place or pace, age, caste, creed and religion. To achieve the mission of KKHSOU, the Programme has emphasized the following prospective target groups of learners:

- i) Women learners (working, non-working) who wish to gain knowledge in the subject, and prepare for competitive exams.
- ii) People engaged in different services, business, or other professions.
- iii) People hailing from remote areas and any other disadvantageous conditions.
- iv) Learners who are deprived of higher education in conventional system for various reasons.

4. APPROPRIATENESS OF THE PROGRAMME TO BE CONDUCTED IN ODL MODE TO ACQUIRE SPECIFIC SKILL AND COMPETENCE:

The theoretical nature of the programme, which includes the study of concepts and ideas, description of the historical events etc, makes it suitable for the learners in the ODL mode. As a narrative subject, History is most compatible for the ODL platform to enable the learners to acquire specific knowledge on the subject through Self Learning Materials (SLMs). The method of instruction in KKHSOU is different from that of the conventional Universities. The Open University system is more learner-oriented, and the learner is an active participant in the pedagogical (teaching and learning) process.

The printed study materials (written in self-instructional style) are supplied to the learners. The syllabi of the BA History Programme (Major) have been upgraded as per the recommendations of the Report of the *Committee to Regulate the Standards of Education being Imparted through Distance Mode* under the chairmanship of N. R. Madhava Menon, popularly known as the Madhava Menon Committee Report.

The SLMs have the following features:

- i) ***Self Explanatory and Self-contained:*** The content is presented in a self-explanatory style so that the learners can go through the materials without needing much external support, whether it be additional sources or even a teacher.
- ii) ***Self-directed:*** The SLMs of BA History Programme (Major) are aimed at providing necessary guidance, hints and suggestions to its learners at each stage of learning. It is presented in the form of easy explanation, illustrations, interesting fact findings etc., which includes ‘Let Us Know’ (for additional knowledge), ‘Illustrations’, ‘Check Your Progress’ (for self-evaluation), ‘Activities’ (for an in-depth understanding on a particular issue/concept) and ‘Model Questions’ etc.
- iii) ***Self-Motivating:*** In the ODL system, the learners remain off the campus for most of their study time. Therefore, the SLMs of BA History(Major) Programme are designed in such a way that it will satisfy the learners’ curiosity on the subject and make the entire learning process worthwhile and meaningful for them.

5. INSTRUCTIONAL DESIGN:

5.1 Curriculum Design: The course structure of the programme, the syllabi, mostly the academic content of the course, is prepared by an expert Committee, comprising

eminent scholars and academicians from the discipline, including the existing faculty members of the department and approved by the competent authority of the University. 4. APPROPRIATENESS OF THE PROGRAMME TO BE CONDUCTED IN ODL MODE TO ACQUIRE SPECIFIC SKILLS AND COMPETENCE:

The programme has been designed in such a way so as to accommodate practical based units within the ambit of the courses. In fact, the BA in Journalism & Mass Communication programme has an eclectic mix of courses catering to the needs of the learners as well as the demands of the society. Text based study materials are supplemented by interactive CDs, DVDs, etc. so as to make learning more interesting and informative. In order to prepare the learners to face the tough competition that the present job markets have to offer, they are required to undergo research projects at the degree level in the sixth semester programme. This will enable them to get a grip on the dynamics of journalism and mass communication. Apart from the provision of self-learning materials, counselling classes (tutorial classes) are also conducted in various study centres recognized by the University and spread across the length and breadth of the State. Moreover, there are a number of online resources like online social networking platforms, online discussion forums and online library resources like OAJSE (Open Access Journals Search Engine) which is an Open Access E-Journal Search

Portal. For the benefit of the learners, study materials have been provided in online format along with audio lectures. The website of the University also provides information regarding the course assignments, information about the examination routine and results etc. Such facilities are highly compatible in an ODL platform which makes BA in Journalism and Mass Communication appropriate to be launched through ODL.

5. INSTRUCTIONAL DESIGN:

5.1 Curriculum Design:

Curriculum of the BA programme in Journalism and Mass Communication has been designed by a carefully constituted Syllabus (CCS- Committee on Courses)Committee whereby the experts have been drawn from Universities like Rajiv Gandhi University, Mizoram University, Gauhati University and Tezpur University. The contents of the syllabi are up-to-date. While preparing the syllabi, UGC Model Syllabi and syllabi of other Universities and recommendations of Madhava Menon Committee (2011) have been consulted. 5.4 Definition of Credit Hours: The University follows the system of assigning 30 hours of study per credit of a course. Thus, following this norm, a 4 credit course constitutes a total of 120 hours of study. Out of the total credit hours, a minimum of 10 percent, i.e., minimum 12 hours of counselling per course is offered to the learners at their respective study centres.

5.5 Programme Structure: The programme structure and the detailed syllabus has been placed in **Annexure I** and **Annexure II** respectively.

5.6 Home Assignment

Assignments are a part of the teaching-learning process and are compulsory. Assignments are evaluated and feedback is communicated to the learners by giving back the assignments with evaluators' comments. Such assignments are collected again by the Study Centres at the time of issuing admit cards and are stored in the study centre's office till the end of next semester, for verification by the University, failing which might lead to withheld of result. 20% marks in a course (without practical) shall be for Home Assignment wherever indicated. For GJMC 08, there will be no home assignment. Instead, learners will have to submit four reports related to traditional media. 40 marks have been assigned for reports and 60 marks for examination.

5.7 Project Work

Every learner will have to carry out either a Minor Project work or prepare an audio/audio-visual programme in the sixth semester. In case of project report, a learner will have to choose a specific topic related to any form of mass communication/journalism/public relations/advertising/media, etc. and prepare a comprehensive project report after doing an in-depth study of the topic. The topics will be decided in consultation with recognized Course Counsellors or media scholars, researchers or media professionals. For doing the project work, a project guideline would be provided in the University website: www.kkhsou.in. As far as the audio/audio-visual production is concerned, the learner will have to prepare an audio (for example, radio drama) or audio-visual clip on any area of communication/media along with a script. The audio clip can be submitted in AVI, MP3 or in WAV format. Audio-visual files can be submitted in MPEG, MP4, m4v, DAT or VOB formats.

Detailed syllabi of the courses have been attached in *Annexure I* of this report.

5.8 Duration of the Programme:

The BA programme in Journalism and Mass Communication has six semesters and is of minimum 3 years. However, the maximum duration of the programme is 8 years as stated below:

- Minimum Duration : 6 semesters (3 years).
- Maximum Duration : 8 years.

In case, a learner is not able to qualify a course in its first attempt, he/she shall have to qualify in the particular course within the next four attempts, subject to maximum duration of the study.

5.9 Faculty and Support Staff Requirement:

The University currently has 2 full time faculty members in the Department of Journalism and Mass Communication, viz., two Assistant Professors. The resources are mobilized from other Universities in the region as far as writing of self-learning materials is concerned. The required support services are extended by KKHSOU. For the purpose of editing of audio/audio-visual materials, services are provided by the Multimedia section of the university which have one production assistant and two editors (for editing the audio/audio-visual study materials).

5.10 Instructional Delivery Mechanism:

The Self Learning Materials have been prepared keeping in view of the above definition of instructional design. Particular attention has been given so that the basic three domains of knowledge, viz., behavioural domain, cognitive domain, and constructive domain can be addressed. A few examples have been mentioned in the following table.

Domain of Knowledge	General Learning Tasks generally used	Contents in Self Learning Materials
Behavioural	<ul style="list-style-type: none"> • Memorising • Undertaking Routine Tasks • Learning arbitrary information • Learning rule systems • Invariable (Routine) learning procedures 	<ul style="list-style-type: none"> • Journalism and Mass Communication is a professional subject. As such, there are certain field based topics (practical), theoretical propositions and concepts, which needs to be memorised.
Cognitive	<ul style="list-style-type: none"> • Classifying • Concept learning • Problem-solving • Procedures • Reasoning and argument • Rules 	<ul style="list-style-type: none"> • There is ample scope in this domain of knowledge. Most of the theories in Journalism and Mass Communication are conceptual. Certain portion of the syllabi is also quantitative-based (specially relating to the area of communication research) and hence offers scope for the development of problem solving abilities.
Constructive	<ul style="list-style-type: none"> • Case Studies • Complex Situations • Real-world Problem-solving 	<ul style="list-style-type: none"> • Certain real-world situations are included in the course. For example, in the discussion of theories related to media scenario, students are advised to draw evidences from real world situations.

Since Mass Communication and Journalism is basically a professional subject, so the curriculum has been designed by incorporating certain practical-based units. Apart from the provision of self-learning materials, CDs are also distributed to the different study centres for the utilization of the learners. These are basically pre-recorded audio-visual CDs containing discussions on a range of issues pertaining to the area of Journalism and Mass Communication. In order to evaluate the learner's engagement in the different areas of

Journalism and Mass Communication, assignments are given to the learners from where 20 % of the marks are added to the final examination result. Various online social learning platforms are in place in order to respond to the learners' queries. Online communication tools like emails are a way of keeping in touch with the learners.

Blended learning in the field of distance education makes use of personal contact programmes along with the online mode of instructional delivery system supported by ICT. Blended learning increases the options for greater quality and quantity of human interaction in a learning environment. It offers the learners to be 'both together and apart'. **Traditional on-campus learning** consists of face-to-face learning (counselling sessions) which is imparted to the learners at the study centres by the instructors (subject specific teachers of the government recognized colleges). The University also makes use of both synchronous and asynchronous learning technologies through the medium of **online learning**. Synchronous learning refers to the exchange of ideas and information with one or more participants during the same period like face-to-face discussion, skype conversations, chat rooms etc. Asynchronous learning makes use of certain technologies/online platforms like email, blogs, wikis, discussion boards, web-supported textbooks.

The different facets of new media technologies have been analysed in the following way-

- a) **Learning through community radio (e-Jnan Taranga)** : Community radio was launched on 28th January, 2009, but it was officially launched on 20th November, 2010, known as Jnan Taranga, the radio can be heard at 90.4 MHz. The community radio is an important platform for the broadcast of educational programmes which includes debates, discussions and talk shows. For the purpose of having a wider networked community, the University launched the internet version of the community radio on 20th November, 2010 known as e-Jnan Taranga. Different academic programmes are broadcast over the internet radio with special focus on issues like health & hygiene, women empowerment, rights of the children, environment and bio-diversity, career counselling, sports, legal issues, governance, youth programmes and agriculture.
- b) **Provision of e-Resource and e-Learning Portal:** The central library of KKHSOU maintains an e-Resource Portal. Journals, Dictionaries, Thesauruses, Encyclopaedias and e-books are available at the respective site. One can access the different online journals at JSTOR and JGATE databases. Apart from the aforementioned databases, one can gain access to the SAGE journals also. The **Open Access Journals Search Engine (OAJSE)**,

(<http://www.oajse.com/>), an Open Access e-Journal Portal of Krishna Kanta Handiqui State Open University provides access to innumerable journals and articles to numerous academicians and learners.

The Open Access (OA) e-Journal Portal of KKHSOU provides access to over 4,100 Open Access Journals. An **e-learning portal** by the name of **e-Bidya** has been set up where study materials of different subjects have been uploaded. The audio and audio-visual learning materials have been uploaded on the website of KKHSOU for easy accessibility.

The website of KKHSOU has also facilitated the downloading of important materials like home assignments, admission forms, old question papers, important notices of the University, etc. The website also includes the customized study centre search facility based on district or programme.

c) SMS alert services: SMS alert facility is a part of mobile learning system where learners can subscribe for up to date news and other announcements of the university. Learners can subscribe as free SMSs via email. The people who subscribe to the email alerts get updated about the examination routine, syllabus etc.

d) Social media as an interactive platform : Information about the functioning of the University, examination routine, course curriculum etc. are easily available through various social networking platforms like Facebook(<https://www.facebook.com/groups/272636986264210/>) and Twitter(<https://twitter.com/kkhsou>). The members of the social network sites can log on to the home page of the University and can post comments, queries or start a discussion on any topic of interest.

e) Availability of online job portal: In order to create awareness among the masses about the different job opportunities, KKHSOU job portal (<http://www.kkhsoujobportal.in/>) was inaugurated in 2013. Within a period of two years, it has been able to garner the support of the learners who have given positive feedback regarding its functioning. Its importance can be gauged from the fact that the portal won the 5th e-North East Award for the year 2014 in the category of e-livelihood and enterprise.

f) Availability of E-SLM: Study materials from different subjects including Journalism and Mass Communication have been uploaded in online format (<http://eslm.kkhsou.in/?dir=DEGREE/BA>) for the benefit of the learners. Online audio lectures of Mass Communication

(<http://www.kkhsou.in/web/QuestionPaperRepository/AllFiles/?dir=Audio%20Lectures/Mass%20Communication>) have been made available in the website of K.K. Handiqui State Open University. These lectures have been recorded at the community radio station's studio of the University where experts have deliberated and discussed on different issues of Journalism and Mass Communication.

5.11 Identification of media –print, audio or video, online, computer aided:

All the learners are provided with Self Learning Materials, which is comprehensive in terms of contents in the syllabi. These learning resources are prepared with the help of resource persons across the country. Senior Professors from different Universities of the region are engaged as Editors of the SLMs. Apart from the Print Self Learning Materials, audio and video materials on certain modules would also be offered to the learners. In addition, certain topics are also covered through community radio programmes broadcast through the *90.4Jnan Taranga* Community Service Station of the University. *Eklavya*, a radio programme broadcast from All India Radio Station, Guwahati and simultaneously broadcast by All India Radio Station, Dibrugarh, also covers topics on Economics and personal enrichment. Live Phone-in-programme is broadcast by All India Radio, Guwahati each Thursday (9.15 am – 10.15 am). In this programme, learners get live support to their queries, while the general public in general can also interact with officials/faculty members of the University on varied issues. Most of the Audio-Visual programmes are also made available online through YouTube videos.

5.12 Learner Support Services:

Learner support services comprise all the assistance provided by a distance education system to the learners so that they don't feel isolated from the educational system and get adequate academic and administrative support to make the system at par with the face to face mode of conventional education. The learners' support services available in the BA programme in Journalism and Mass Communication consist of both ICT and non-ICT based support services (traditional mode of instructional delivery mechanism). The major forms of conventional support services are -

- i. **Self-Learning Materials:** These study materials are prepared by a team of experts, each of them belonging to their own area of expertise. A detailed syllabus is prepared by the board of management and the teachers keeping with the changing needs of the society. The material is written in simple language in both English and Assamese language

(bilingual) complete with modules and activities. Each of the SLMs are a mix of theory, practical and exercises to be done by the learners.

- ii. **Counselling sessions:** Academic counselling sessions are held at study centres every Sunday. Such kind counselling is provided to the learners as the learners are unable to attend regular academic classes like in conventional face to face traditional mode of education.
- iii. **Library facilities:** By virtue of the independent learning concept of the distance Educational System, library facilities should occupy an important place in the learner's learning process and form an essential part of support services. KKHSOU has been instrumental in providing library facilities to PhD and MPhil scholars of different departments at the Central Library of the University . They are provided with a library card , with the help of which they can get access to books, journals, thesis etc. in the library. As far as the learners of study centres are concerned, they are provided with a limited number of books at their respective centres which are accessible to them.
- iv. **Multimedia laboratory facility:** The University has a well-equipped state-of-the- art multimedia laboratory facility at its city centre. The multimedia laboratory has audio console, audio mixer and up-to-date editing software (like FCP) for the purpose of audio and audio-visual editing. Though such facilities are yet to be availed by the learners at different study centres, yet they can make use of the facilities at the editing suite situated at the city centre of the University.

ICT Support: ICT support is a major component of any ODL system of education. Our university has as such given emphasis on this. Some ICT-based support systems provided by the university for the learners of BA in Journalism and Mass Communication are listed below:

The website also includes the customised study centre-search facility based on district or programme. And most of the Audio-Visual programmes are also made available online through YouTube.
- ii. **Community Radio Service: Jnan Taranga** (90.4 MHz) is the first Community Radio Station of the North Eastern part of the country, established under the aegis of KKHSOU. The Community Radio, being a platform for the community for taking up

6.7 Evaluation system of the programme

- i. The University adopts both ongoing and term end evaluation. Ongoing evaluation is conducted in two modes: internal and external. The internal evaluation is to be undertaken by the learner himself. For this, the University has designed some Check Your Progress questions, which would help the learners to self-check his progress of study. However, this is undertaken at the learners' end themselves and is non-credit based. For overall evaluation of a course, the University follows the two types of evaluation:

Continuous Evaluation (Assignments) : Weightage assigned 20%.

- Term End Evaluation (Semester-end Examinations) : Weightage assigned 80%.
- ii. The learners have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres evaluate the assignments and return them to the learners with feedback.

Moreover, uses of interactive kiosk at study centres for issue of admit cards and modification of the existing EDPS (Examination Data Processing System) for quick publication of results of examinations is also being planned. Similarly, introduction of biometric identity of learners is also being planned.

7. REQUIREMENTS OF THE LABORATORY SUPPORT AND LIBRARY RESOURCES:

Since the BA in Journalism and Mass Communication programme requires practical based courses to be integrated with conventional text based courses, so laboratory and library facilities are an important requirement in this area. A state-of-the-art editing room has been constituted at the city office of the University located at Housefed Complex, Beltola for the purpose of editing audio and video programme. A well stocked library connected with wi-fi is also necessary to browse through reference books as well as online journals. This is because most of the books pertaining to the area of mass communication and journalism are widely available in the Western countries making it difficult for learners from developing countries like India to procure them as they are pretty expensive. It is worth mentioning here that K.K. Handiqui State Open University has a Central Library of its own which is situated at the University headquarters at Rani, Guwahati. Library services are offered to the learners through physical library facilities set up by the University at the respective study centre. Reference books are suggested by the faculty members of the University, and are supplied to the libraries located at the study centres. Some of the important subject specific books that are widely available at the central library are –

- i. Aggarwal, VirBala, V.S Gupta (2002). *Handbook of Journalism and Mass Communication*. New Delhi: Concept Publishing Company.
- ii. Adler, Ronald B., Rodman, George R. (2000). *Understanding Human Communication*. Harcourt Brace College Publishers.
- iii. DeVito, Joseph A. (2002) *Essentials of Human Communication*. Boston: Allyn & Bacon.
- iv. Fiske, John (1990) *Introduction to Communication Studies*. New York: Routledge.

9 QUALITY ASSURANCE MECHANISM AND EXPECTED PROGRAMME OUTCOMES:

9.1 Quality Assurance Mechanism: With regard to the quality concerns of the course materials, the department is involved in the following activities:

- i. The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this Expert Committee (CCS) is helped by the in-house department faculty while preparing the framework of the programme.

- ii. The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of 15 units) to the assigned authors. The in-house faculty prepares a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.
- iii. The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- iv. Since the BA programme in Journalism and Mass Communication is prepared in a bi-lingual format, the units post content editing are then sent for Assamese translation to a select list of outsourced translators. Later, the materials are sent to the Language Editor, who then looks into the contents of the material written in Assamese and give their necessary suggestions to be incorporated by the coordinator of the particular programme. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.
- v. The newly constituted CIQA (Centre for Internal Quality Assessment) Office is planning to conduct stakeholders' meeting, SLM Audit and Counselling Workshops which is expected to provide the University and the Department with required inputs for quality enhancement.
- vi. In order to keep the programme updated, the programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected Programme Outcomes: The outcomes of the programme are manifold including the following:

- i. It will enable the learners to acquire knowledge enabling them to articulate well the condition around them.
- ii. The programme will also help the learners to seek avenues in the media sector and/or other upcoming sectors like animation and entertainment sectors and other service sectors.
- iii. The programme will also encourage the learners to go for higher studies.

Prepare a script for either radio or television advertising on any topic of your choice by keeping in mind the following steps-

Step 1

Identify your target market. Know as much as you can about their ages, genders, lifestyle and any other factors that identify them. The better you know your audience, the more effectively you can speak to them.

Step 2

Determine the objective of your advertisement. You may want to make people aware of a company, product or service, entice them to buy or take action of some kind. Everyone involved should agree in advance on what the ad should accomplish.

Step 3

Write to your audience. Use the language they use, words they understand and images they can identify with. Keep your message simple, direct and clear.

Step 4

Grab the audience's attention in your opening scene and dialogue. If you're writing a radio advertisement, use words that describe the image.

Step 5

Repeat your message several times in different ways. Once is not enough to make the message memorable. Even in a 30-second spot, repeat your main message at least once.

Step 6

Include a strong call to action that will make people want to take the next step -- go to your store, pick up the phone, tell their friends or whatever it is you want the audience to do. Leave no doubt in their minds what action you want them to take.

Step 7

Follow standard format for radio scripts. Using two columns, put directions and sound effects on the left, and dialogue on the right.

Step 8

Time your advertisement, allowing for normal rates of speaking, action and sound effects. Make the script two seconds shorter than the desired length to allow for fade-in and fade-out of the advertisement.

KRISHNA KANTA HANDIQUI STATE OPEN UNIVERSITY PROGRAMME PROJECT REPORT

BACHELOR OF ARTS (Pass)

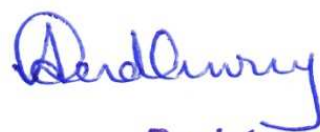

1. Programme Mission and Objectives:

The B.A. Programme has been offered by Krishna Kanta Handiqui State Open University (KKHSOU) to extend the horizon of higher education to those who, for one reason or another, could not opt or complete higher education from the traditional mode of education. Apart from BA with major (any one) subject, General BA (Pass) Programme also has been offered by the University. The learners who do not wish to opt for any major course can obtain BA degree with pass courses. This BA (Pass) Programme comprising six semesters will have to be completed in minimum three years of duration.

The BA (Pass) Programme has been thoroughly revised in accordance with the UGC Regulations on Open and Distance Learning, 2017. The syllabi of this Programme have been finalized after a series of deliberations and discussions with academic experts in the respective fields from Universities of repute, such as Gauhati University, Dibrugarh University and other Universities. The quality of Curriculum and Syllabus of this programme has been so designed as to accommodate the recent developments in the fields of Higher Education in general and the subject in particular and also to meet requirements of the learners representing the diverse sections of the society. For example, the course on MIL will take care of the needs of the myriad linguistic groups. This will help the University in achieving the mission and spreading quality education across the state.

The motto of the Krishna Kanta Handiqui State Open University (KKHSOU) is *Education beyond Barriers*. Keeping this idea in mind we are offering the BA (Pass) Programme. The main objectives of the programme are as follows-

- a) To provide the basic theoretical knowledge of different courses on subjects- like Political Science, History, Education, Economics and Mathematics etc. to the learners, so that their levels of skill and employability are developed.
- b) To disseminate different information that emerges in the domestic as well as global environment.
- c) To exchange knowledge and experiences gained from past.
- d) To contribute to the University's mission of regional development by putting importance on regional issues.
- e) To motivate the learners for further studies.

2. Relevance of the Programme with KKHSOU's Mission and Goals:

The General B.A. (Pass) Programme offered by KKHSOU has been prepared in conformity with the mission and goals of KKHSOU. As we know that the goal of the Department of Higher Education, MHRD is to expand the higher education sector for all in a mode of delivery to increase the Gross Enrolment Ratio (GER) in Higher Education from 15% in 2011-12 to 21% by 2016-17 and 30% by the year 2020. Open Universities of the nation have been playing a vital role in this regard. In Assam KKHSOU is the one and only state Open University and it can contribute toward fulfilment of this goal. The General BA programme tries to fulfill the following mission and goals of the University:

- a) To expand the reach of higher education to cover the maximum number of population.
- b) To maintain equity or justice in the field of higher education.
- c) To ensure quality or excellence in the realm of higher education.
- d) To contribute towards economic growth and development of the country.

3. Nature of Prospective Target Group of Learners:

The University would target the following groups of learners through the BA (Pass) Programme

- i. Women Learners specially housewives who want to get empowered with higher education and acquire professional skills
- ii. Differently-abled persons
- iii. Persons who could not complete higher education in time during their student' days
- iv. People hailing from far flung and remote areas and living in other disadvantageous conditions.
- v. Employed/self-employed persons with penchant for higher education and learning skills
- vi. Persons who could not get access to higher education in conventional system for various reasons.
- vii. The students who are desirous to obtain a Degree without Major subject.
- viii. The ratio between HS passed outs and the number of higher education institutions are not adequate. Therefore, majority of the pass-outs are often not able to pursue higher education in conventional educational institutions. Those learners are our main target group and our programme has been designed as per their needs.
- ix. Working people who wish to develop their professional skills as well as academic career.
- x. People willing to earn for a living while learning at the same time.

4. Appropriateness of Programme to be Conducted in Open and Distance Learning Mode to Acquire Specific Skills and Competence:

The General BA (Pass) Programme is basically theoretical and therefore, is, in general, suitable for the ODL mode. Keeping in mind the goal of the Department of Higher Education, MHRD is to increase the Gross Enrolment Ratio (GER) in Higher Education; the ODL education system can play a major role in this regard. Therefore, General BA programme may be considered as one of the best choices for this goal. Learners are the top priority of any educational system. KKHSOU has also given importance on learner centric education. In this connection, General BA (Pass) Programme has been designed in such a way

and our university has adopted various modes of instructions so as to facilitate learners to participate actively in teaching-learning process. These can be stated as follows –

4.1 Study Centres: Study centres are the backbone of an open and distance learning institute. On behalf of the university the study centres cater to the various requirements of the learners, viz. admission related information, delivery of SLM, conducting counselling sessions, distribution of assignments and its evaluation, conducting term end examinations etc. The study centres scattered throughout the state look to these affairs on behalf of our University.

4.2 Pre-enrolment Counselling: With the help of study centres our University would conduct pre-enrolment counselling to motivate learners toward ODL and our University. Through this we would provide basic knowledge of our different programmes, counselling sessions etc.

4.3 ICT Support: ICT support is a major component of any ODL system of education. The University has given emphasis on this. Some ICT-based support systems provided by the University for the learners of General BA programme (pass course) are listed below:

4.3.1 Website: We have developed full-fledged official website www.kkhsou.in for our learners and general public. Here we have provided all necessary information to our learners. The Website is also linked with the social-networking site like Facebook (KKHSOU FB Official Group) for interaction among the learners, faculty members and stakeholders. The website also includes the customised study centre-search facility based on district or programme. And most of the Audio-Video programmes are also made available online through YouTube..

4.3.2 Community Radio Service: Jnan Taranga (90.4 MHz) of KKHSOU is the first Community Radio of the North Eastern part of the country. The Community Radio, being a platform for the community for taking up community issues, is also a platform to broadcast several educational programmes that includes debates, discussions, and talk shows.

4.3.3 Ekalavya: With the help of Prasar Bharati, our University has launched a special educational programme namely **Ekalavya**. It is aired every Saturday from 8.00 PM to 8.30 PM through All India Radio, Guwahati and Dibrugarh.

This enables the learners to clear doubts with regard to the various courses provided to them. Generally, 15 counselling sessions take place for a course in each semester.

6.3 Evaluations:

- i. The University adopts both ongoing and term-end evaluation. Ongoing evaluation is conducted in two modes: internal and external. The internal evaluation is to be undertaken by the learner himself. For this, the University has designed some Check Your Progress Questions in every unit of SLMs, which would help the learners to self-check his progress of study. However, this is undertaken at the learners' end themselves and is non-credit based. External method is through home assignment.
- ii. For each course assignment has been given for continuous assessment of the learners. Assignment should be hand written and it should be submitted timely in the study centres. In the term-end examinations, 20% weightage comes from the assignments and 80% from the written examination. Non-receipt of assignments in time may lead to withheld of final result. The learners have to submit the assignments within the schedule of a semester at the respective study centres. The

- counsellors at the study centres evaluate the assignments and return them to the learners with feedback.
- iii. The University conducts term-end examination once for odd semesters and once for even semesters in a year. The learner can take the examination only after the minimum period prescribed for the course of study. Questions for the Semester End paper would be set as per the Evaluation policy of the University to have coverage of all the modules of the respective courses.
 - iv. Examination schedules indicating the date and time of examination for each course is sent to all the study centres in advance; the same is also notified in the university website. Mobile app is also used to send SMS alerts to the learners.
 - v. Learners would be able to get their scripts re-evaluated if they are not satisfied with evaluation.
 - vi. The University is in the process of using high security and eco-friendly synthetic (water proof and termite proof) papers for marksheets and certificates. Moreover, uses of interactive kiosk at study centres for continuous and effective interaction with learners and also for issue of admit card, biometric identity of learners and modification of existing EDPS system for quick publication of results of examinations are also being planned.

7. Requirement of the Laboratory Support and Library Resources

General BA (Pass) Programme is not a laboratory based programme except introduction to Information Technology; therefore, we provided laboratory support to that course only. We have already stated that our programme would be offered in ODL mode and it would be conducted by study centres situated in different parts of the state. All our study centres are situated in reputed colleges or institutes and they have well equipped libraries and laboratories. The University supplies some reference book to the study centres too.

The Central Library, Krishna Kanta Handiqui State Open University plays a vital role in the collection, development and dissemination of academic, scientific and technical information to meet the present and future needs of the University. We get adequate support from the library stock in the preparation of SLMs. The library remains open from 10.00 am to 5.00 pm in all working days. The library is fully computerized with an ILS (Integrated Library System) and also equipped with RFID (Radio-frequency Identification) technology. The Central Library has the following resources:

Physical Resources:

• Books	18,164
• Theses	8
• Report	1
• Journals	35

Shodhganga repository is the reservoir of Indian intellectual output stored, hosted and maintained by the INFLIBNET Centre, an IUC of UGC.

8. Cost Estimate of the Programme and Provisions

The office of the Finance Officer of KKHSOU keeps all the records of finances regarding print of SLMs, honorarium paid to the members of the Expert Committee, honorarium to be paid to Content Writers, Content Editors, Language Editors, Translators, Proof Readers and also the expenditure related with organizing counsellors' workshops, meeting of the coordinators of the study centres etc. Moreover, the finance office also maintains records of purchase of computers, online space, books, journals etc. The accounts are maintained as per the laid down procedures of government. As regards, the cost of programme development, programme delivery, and programme maintenance; the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the BA Programme (Pass).

8.1 Programme Development Cost

The office of the Finance Officer of KKHSOU has worked out the following also.

- a. SLM Development Cost for Under Graduate programme
 - English medium per Unit Rs. 5,500/-
 - Assamese medium per Unit Rs. 5,680/-
- b. Printing Cost per SLM Rs. 56/-
- c. Cost of CD per unit Rs. 23/-

8.2 Programme Delivery Cost:

The SLMs prepared have to be delivered to various study centres located at the far flung remote areas. On an average, the University delivers about 15 KGs of study materials per student. The cost of delivery of 1 KG of such material is Rs.10. Accordingly, depending upon the number of candidates; the cost for the BA Programme (Pass) will be provisioned by the University. The office of the Finance Officer has calculated the delivery cost of SLM per student at Rs. 150.00.

8.3 Programme Maintenance Cost:

The University will keep financial provision for organizing Stake Holders' Meetings, counselling workshops etc. as per the Academic Plan and Academic Calendar approved by the Academic Council of the University. The workshops conducted by the University will not only benefit the learners of the programme, but will also benefit the learners of other programmes. The University will also bear the cost of organizing the meeting of Syllabus Revision Committee etc. and also for supply of additional study materials if required for improving the quality of the programme. Moreover, the University will keep on investing in developing the IT infrastructure so that the learners can benefit from the ICT enabled programme. The maintenance cost calculated by the office of Finance Officer for the Under Graduate (Arts) programmes per student is Rs. 600.00.

The figures as indicated above will be applicable for the BA Programme of the University. The University will keep adequate financial provision for development, delivery, and maintenance of the BA programme presented as per the Programme Project Report.

9. Quality Assurance Mechanism and Expected Programme outcomes

9.1 Quality Assurance Mechanism: As quality assurance mechanism, the all departments have taken some steps which can be mentioned below:

- i. According to Madhava Menon Committee Recommendations, the BA Programme curriculum has been revised with the help of different subject experts of each subject with CCS being constituted for each subject. Formed with due approval from the University authority, this Expert Committee was helped by the in-house department faculties while preparing the framework of the programme.
- ii. Proficient teachers of all subjects from the various Universities and Colleges in Assam have been engaged to prepare quality SLMs of the courses of BA (Pass) Programme. The in-house faculties also write units.
- iii. Some subjects of General BA Programme are prepared in a bi-lingual format. The units having undergone content editing are then subsequently sent for Assamese translation to a select list of outsourced translators. Thereafter, the materials are sent to the Language Editor, who then looks into the contents of the material written in Assamese and give their necessary suggestions to be incorporated by the coordinator of the particular programme. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.

- iv. The Director of the Centre for Internal Quality Assessment (CIQA) of the University will take care of quality assurance mechanism. The CIQA office has conduct Stake Holder's Meetings on timely basis, SLM Audit, Assignment and Counselling Workshops. These initiatives are expected to provide the University and the Departments with required inputs for quality enhancement.
- v. In order to keep the BA Programme updated, the Programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected Programme Outcome: The outcomes of the programme are manifold:

- It will enable the learners to acquire knowledge of different courses.
- The programme will also encourage the learners to go for higher studies.
- The programme would enable the learners to acquire the entry level qualification of graduation to apply for various competitive examinations.
- The programme would also help the prospective learners of the target groups to fulfill their aspiration to become a graduate.

PROGRAMME PROJECT REPORT
BA IN PHILOSOPHY (MAJOR) PROGRAMME

1. PROGRAMME'S MISSION AND OBJECTIVES:

The very aim of the establishment of K. K. Handiqui State Open University is not only to promote education and to reach the unreached through the Open and Distance learning system, but also to foster and provide easily accessible modes of higher education and training with the use of latest educational inputs and technology. With a view to enhancing the knowledge of age-old spiritual education of India as well as the philosophically oriented education of the East and West, the University offers Philosophy as a subject for both Pass and Major courses in BA Programme. The Motto as well as the mission of the BA Programme in Philosophy is to provide opportunities of learning and awareness of the issues of philosophy through Indian, western, and Global perspectives. Philosophy, as an academic discipline in the university system of higher learning, plays a vital role in discovering the power of reasoning which lies latent in human beings and which helps to regulate human thinking and conduct in a proper manner.

KKHSOU would offer the B.A. Programme in philosophy (Major) to achieve the following objectives:

2. RELEVANCE OF THE PROGRAMME WITH KKHSOU'S MISSION AND GOAL

The relevance of the Programme of BA Major programme in Philosophy can be shown in the following way:

- i. Philosophy, as an intellectual discipline, develops our reasoning capacity or visionary or anticipatory power through which we can judge whether an action performed by us or a plan made by us is right or wrong. Although the development or growth of mental capacity of a learner is not immediate or tangible, by studying philosophy for a short period, the learners can improve their mental development with a profound and long-lasting effect.
- ii. The different areas of philosophy like Indian Philosophy, Logic, Analytic Philosophy, Ethics, Philosophy of Mind, Philosophy of Language; Philosophy of Religion, Western Philosophy, Contemporary Western Philosophy, Contemporary Indian Philosophy, Applied Philosophy etc. have been reflected in the B. A. Major Course in Philosophy. Thus, the papers like Indian Philosophy, Ethics, Philosophy of Religion, logic, Western Philosophy, Contemporary

Western Philosophy, and Applied philosophy have been incorporated in B. A. Major Course in Philosophy.

- iii. After going through the different courses in this programme, learners will not only be able to study the basic issues of philosophy but also be able to see the issues critically, methodically, and systematically. The analytical or reasoning power, which is acquired and developed after successful completion of the programme, will pragmatically help our learners a lot in building the career of life professionally as well as academically. Apart from this, to lead a happy, peaceful, and prosperous life in a society, it can provide our learners some applied tricks through the study of ethics, religion, and logic and spiritual education inherent in Indian Philosophy.

It can be stated that the BA programme in Philosophy (Major) will showcase KKHSOU's Mission and Goals. They are respectively:

As regards, the cost of programme development, programme delivery and programme maintenance, the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the programme on BA in Political Science (Major).

8.1 Programme Development Cost: Rs. 11, 65,500.00 in English medium and Rs. 11, 92,800.00 in Assamese medium. The office of the Finance Officer of KKHSOU has worked out the following also:

9. QUALITY ASSURANCE MECHANISM AND EXPECTED PROGRAMME OUTCOMES

9.1 Quality Assurance Mechanism

- i. Regarding the issue of quality maintenance and quality assurance, the initial version of the Self Learning Materials of BA (Major) Programme in Political Science have been reviewed by subject experts. Recently, the syllabus in Political Science has been revised and upgraded as per the recommendations of the Madhava Menon Committee Report as indicated earlier. Accordingly, based on the revised syllabus, the updated and modified Self Learning Materials are being prepared at present for which the teachers from the department of Political Science of different universities and colleges have rendered their services as resource persons in authoring the units. Moreover, as mentioned earlier, all SLMs have to undergo three layers of editing, namely, format editing, language editing and content editing before final publication.

- ii. It may be mentioned here that after the content editing stage is over, the units written in English, are sent for Assamese translation to a select panel of outsourced translators. Subsequently, the translated units are sent to the Language Editor in Assamese who examines the units written in Assamese and checks for and corrects any errors with regard to language, grammar and content of the translated units. The necessary suggestions made by the Language Editor in Assamese are then incorporated by the coordinator of the particular programme. The next step is that of printing the SLMs and distributing them to the respective study centres in time. Arrangements are made to hand over the SLMs to the learners on the day of admission.
- iii. The overall quality assurance of the BA Programme in Political Science (Major) is looked into by the Centre for Quality Assurance (CIQA), KKHSOU and the office of the Dean (Academic), KKHSOU. With a view to enhance the quality of the BA Programme (Major), CIQA is also planning to conduct Quality Audit of the revised SLMs from the academic year 2018-19. Besides, workshops for counselors, stakeholders' meetings are also planned. The University has purchased the URKUND anti-plagiarism software. In order to ensure originality in writing, the newly prepared units of the revised SLMs will be subject to plagiarism check.

9.2 Expected Programme Outcomes

- i. After completing the BA(Major)Programme in Political Science, the learners will be able to pursue higher education in Political Science or any other associated subject or area as Public Administration, International Relations, etc.
- ii. The learners will also be qualified to appear in competitive examinations conducted by the Central and State governments.
- iii. Further, the learners will also be able to explore job opportunities in teaching and the NGO sector.
- iv. Significantly, the knowledge gained through the study of Political Science as a subject will also enable the learners to be proactive citizens subsequently inspiring them to join active politics and dedicate themselves to a life of selfless public service.

2. RELEVANCE OF THE PROGRAMME WITH KKHSOU'S MISSION AND GOALS

Sociology is a discipline which studies the social reality in a holistic manner. This requires developing the skill of critical understanding to study the complex reality. A democratic society too requires a reflective and engaged citizenship and the role of higher education is to cultivate this reflectivity among the younger generation. The BA Sociology programme can play an effective role towards this end because:

- i) The very nature of sociology in general and this programme in particular intends to stimulate critical thinking among the learners regarding various aspects of society.
- ii) This critical thinking will be an added benefit (along with the degree) for learners associated with or employed in different sectors like teaching, professionals working in welfare departments and sectors and others professions requiring to associate with different people and problems of society.

3. NATURE OF PROSPECTIVE TARGET GROUPS OF LEARNERS

The programme intends to cater to the aspirations of the following groups of learners:

- i) The students who are desirous to obtain a Degree in Sociology as a Major subject.
- ii) All the stakeholders of the society like-development agents, government officials, policy makers, industrialists, farmers, grass -roots workers, who are interested in ensuring a better standard of living for the people of the society.
- iii) Those who aspire to attain higher education but could not access it due to various socio-economic constraints.
- iv) Those learners who could not complete their higher education.
- v) People who are unable to attend conventional institutes of higher education due to their geographical location.
- vi) People who are employed but still have a desire for higher education.

- b) The department will also make the materials accessible through e-resource data-base.
- c) Since Assamese is the medium of instruction in many schools and colleges of the state, the department takes special care to translate the units to Assamese so that language does not act as barrier in attaining higher education.
- d) Even though the SLMs are made self-sufficient the provision of conducting counselling classes in different study centres is ensured.
- e) As the programme does not require laboratory the measures stated above can be considered as highly appropriate for conducting the programme in Open and Distance Learning Mode.

5. INSTRUCTIONAL DESIGN:

The syllabus of the BA Programme in Sociology has been upgraded as per the recommendations of the Report of the *Committee to Regulate the Standards of Education Being Imparted through Distance Mode* constituted by the Ministry of Human Resource under the chairmanship of N R MadhavaMenon, popularly known as the MadhavaMenon Committee Report. The department of Sociology follows the following procedures to formulate an effective instructional design:

5.1 Curriculum Design: The following steps are followed by the department of Sociology while designing the curriculum.

- i) An expert committee is formed consisting of academicians practicing sociology in different institutes of higher learning to design an effective syllabus.
- ii) After designing the syllabus, the department carefully selects the content writers for the units.
 - a) Content writers are instructed to mandatorily include a section of CHECK YOUR PROGRESS after every sub-section in order to enable the learners to

keep a check on themselves regarding what they have learned in each section of the unit.

- b) Further to make the units interesting the content writers are requested to include an ACTIVITY section.
 - c) The ACTIVITY section is provided with an intention to stimulate the learners to draw connection between the concepts they learn and the surroundings they observe every day. This helps the learner to learn independently and in a better way.
- iii) After receiving the units from the content writer, the department selects subject experts as editors to review and edit the content received from the content writers.
 - iv) After receiving the edited units from the editors, the department selects credible translators to translate the units.

However, this is undertaken at the learners' end themselves and is non-credit based.
- b) Self-assessment exercises within each unit of study.
- c) Continuous evaluation mainly through assignments which are tutor-marked, practical assignments and seminar/ workshops/extended contact programmes
- d) For overall evaluation of a course, the University follows the two types of evaluation:
 - (a) Continuous Evaluation (Assignments) : Weightage assigned 20%.
 - (b) Term End Evaluation (Semester-end Examinations): Weightage assigned 80%.
- e) The learners have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres evaluate the assignments and return them to the learners with feedback.
- f) Term end examinations are conducted on scheduled dates at selected examinations centres. Evaluations are done by the external examiners at zonal centres. After evaluation, further scrutiny is done, followed by moderation. Results are declared within scheduled dates as laid down in the Activity Planner.
- g) Learners would be able to get their scripts re-evaluated if they are not satisfied with evaluation.

- h) Questions for the Semester End paper would be set as per the Evaluation policy of the University to have coverage of all the modules of the respective courses.

Similarly, introduction of biometric identity of learners is also being planned
- j) Project work (100 marks with 4 credit)

The evaluation of learners depends upon various instructional activities undertaken by them. A learner has to write assignment responses compulsorily before taking term-end examination from time to time to complete an academic programme.

- The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee is helped by the in-house department faculties while preparing the framework of the programme.
- The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of 15 units) to the assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.
- The content editors are then roped in for the next round. The content editors, who are mostly in academics from reputed higher educational institutions, look into the contents of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.
- Newly established CIQA office which will take care of the following to enhance the quality of the various facets of the University:
 - Counselors workshops
 - Stakeholders meetings
 - Feedback Responses from the learners from various programmes

9 Quality Assurance Mechanism and Expected Programme Outcomes:

9.1 Quality Assurance Mechanism: With regard to the quality concerns of the course materials, the department is involved in the following activities:

- i. The programme design and structure are decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee is helped by the in-house department faculties while preparing the framework of the programme.
- ii. The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of 15 units) to the assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.
- iii. The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units and provide their

suggestions and feedbacks to be included by the coordinator of the programme.

- iv. Since the B.Com. Programme is prepared in a bi-lingual format, the edited units are then sent for Assamese translation to a select list of outsourced translators. After which, the materials are sent to the Language Editor, who then looks into the contents of the material written in Assamese and give their necessary suggestions to be incorporated by the coordinator of the particular programme. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements are made to distribute the SLMs to the learners at the time of admission.
- v. The newly constituted CIQA Office has conducted stakeholders meeting; SLM and Counselling Workshops which is provided the University and the Department with required inputs for quality enhancement.
- vi. In order to keep the Programme updated, it will be revised and necessary changes will be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected Programme Outcomes: The outcomes of the programme are manifold:

- i. It will enable the learners to acquire knowledge, helping them to scientifically assess the conditions around them.

8. Cost Estimate of the Programme and Provisions:

All financial records regarding the printing of SLMs, honorarium paid to the members of the Expert Committee, honorarium paid to Content Writers, Content Editors, Language Editors, Proof Readers, and also the expenditure related with organizing counsellors' workshops, meeting of the co-ordinators of the study centres etc. are maintained by the office of the Finance Officer of KKHSOU. Moreover, the finance office also maintains records of purchase of computers, online space, books, journals etc. The accounts are maintained as per the laid down procedures of government. Regarding the cost of programme development, programme delivery, and programme maintenance, the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the BCA Programme.

8.1 Programme development cost:

The office of the Finance Officer of KKHSOU has worked out the following cost details:

- a. SLM Development Cost for Under Graduate Programme English medium per Unit Rs. 5,500/-.
- b. Printing Cost per SLM Rs. 56/-.
- c. Cost of CD per unit Rs. 23/-.

8.2 Programme delivery cost:

The SLMs prepared are delivered to various study centres located at the far-flung remote areas. On an average, the University delivers about 15 kg's of study materials per student. The cost of delivery of 1kg of such material is Rs.10. Accordingly, depending upon the number of candidates; the cost for the BCA Programme will be provisioned by the University. The office of the Finance Officer has calculated the delivery cost of SLM per student at Rs. 150.00.

8.3 Programme maintenance cost:

The University will keep financial provision for organizing stake holders' meetings, counselling workshops etc. as per the Academic Plan and Academic Calendar approved by the Academic Council of the University. The workshops conducted by the University will not only benefit the learners of the BCA programme, but will also benefit the learners of other programmes. The University will also bear the cost of organizing the meeting of Syllabus Revision Committee etc. and also for supply of additional study materials if required for improving the quality of the programme. Moreover, the University will keep on investing in developing the IT infrastructure so that the learners can benefit from the ICT enabled programme. The University will keep adequate financial provision for development, delivery, and maintenance of the programme presented as per the Programme Project Report.

9 Quality Assurance Mechanism and Learning Outcomes:

9.1 Quality assurance mechanism: The University follows a mechanism to review the syllabus and SLM at regular interval with the help of some experts. On the basis of expert recommendations, the syllabus and SLM are modified and reprinted. It is also proposed to setup a feedback system on SLM from the learners to improve the quality of SLM. Moreover, it has also been planned by the CIQA office to conduct stakeholders' meetings, SLM audit etc.

9.2 Expected programme outcomes: The outcomes of the BCA programme can be described in some of the points below. The learners will be able to:

- a. Work as software developers in govt. and private sectors
- b. Impart their gained knowledge as computer educators
- c. Open up software firms as entrepreneurs
- d. Develop dynamic web application and smart phone based applications (mobile apps)
- e. Setup computer laboratory including computer network installation and configuration
- f. Maintain and resolve errors of PCs by troubleshooting

PROGRAMME PROJECT REPORT BACHELOR OF SOCIAL WORK (BSW)

1 PROGRAMME'S MISSION AND OBJECTIVES:

Social work is a profession which facilitates; rather empowers individuals, families and groups while restoring or enhancing their capacity for social functioning and strives to create societal conditions that support commUnities in need. Social workers help people overcome some of life's most difficult challenges: poverty, discrimination, abuse, addiction, physical illness, social and emotional crises like loss, unemployment, educational problems, disability and mental illnesses. They help prevent such crises and counsel individuals, families and commUnities to cope more effectively with the stresses of everyday life.

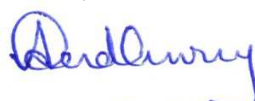

With specific reference to Assam, which is still lagging behind in various aspects of development and is faced with a diversity of issues, social work plays a significant role in smoothening and accelerating the development of the region. Social work education should receive special focus for the said reason.

The Programme on Bachelor of Social Work (BSW) would be offered by the Department of Social Work, under the Surya Kumar Bhuyan School of Social Sciences, Krishna Kanta Handiqui State Open University (KKHSOU). This professional programme has been thoroughly revised in accordance with the UGC Regulations on Open and Distance Learning, 2017. Syllabi of this Programme have been finalized after a series of deliberations and discussions with academic experts from Tata Institute of Social Sciences (TISS), Guwahati and Lokapriya Gopinath Bordoloi Regional Institute of Mental Health (LGBRIMH), Tezpur.

Mission of the programme is to orient the learners to a profession which is committed to social justice and empowerment of individuals, groups and commUnities; respecting individual and cultural diversities. This course would contribute to enhancement of social work skills using theoretical and practical framework.

To achieve this overall mission statement, the following specific objectives have been framed:

- To instil generalist social work practice with client systems of all sizes (individuals, families, groups, organizations, and commUnities).

Registrar
Krishna Kanta Handique
State Open University
Guwahati

- To integrate the values and ethics of the social work profession in the course curriculum in accordance with the NAPSWI (National Association of Professional Social Workers in India).
- To provide both the theoretical and applied knowledge of social work to the learners, so that their skill level and employability are developed.
- To develop analytical skills, research necessary for understanding forms and mechanisms of oppression and discrimination and apply strategies of advocacy and social change that advance social and economic justice.

All these would contribute towards the accomplishment of the mission of the University of providing barrier free meaningful education at the doorstep of the learners.

2. RELEVANCE OF THE PROGRAMME WITH KKHSOU'S MISSION AND GOALS:

The Bachelor of Social Work (BSW) to be offered by KKHSOU has been prepared confirming the mission and goals of KKHSOU. This programme adheres to the following mission and goals of KKHSOU:

- To expand the higher education to cover the maximum no. of population.
- To promote equity and justice in the field of higher education.
- To ensure the quality and excellence in the higher education.
- To increase research both qualitatively and quantitatively.
- To contribute to the economic growth of the country.

The BSW programme would contribute towards accomplishment of KKHSOU's mission and goals by providing theoretical and applied knowledge of Social Work to the prospective learners.

3. NATURE OF THE PROSPECTIVE TARGET GROUPS OF LEARNERS:

The nature of the prospective target groups of learners of this programme are as follows:

- The students who wish to obtain a Degree in Social Work.
- All the stakeholders of the society like-governmental and non-governmental development agents, policy makers, social welfare activists, grass -roots workers, who are interested in ensuring a better standard of living for the under-privileged sections of the society.

- Persons who were unable to complete higher education in the normal course of time and who are interested in social work.
- People engaged in different avenues and wish to develop their professional skills.
- People living in rural and remote areas and other disadvantageous conditions who desire to complete their higher education.
- People willing to earn for a living and learn at the same time.
- Persons deprived of higher education in conventional system for a variety of reasons.
- Denied and deprived sections of people who need social work education for their uplift.

4. APPROPRIATENESS OF THE PROGRAMME TO BE CONDUCTED IN ODL MODE TO ACQUIRE SPECIFIC SKILLS AND COMPETENCE:

The Bachelor of Social Work (BSW) programme would be both theoretical and practical in terms of field work. The programme has been designed keeping in mind the ODL aspects in such a manner that the learners can learn different courses though undergoing the Self Learning Materials designed for the specific programme and also do field-work to be supervised by the counsellors. Certain add-on resources, like CDs, community radio programme, TV programme and counselling sessions conducted in the study centres, are expected to help the learners to clarify their doubts, if any. This would enable the learners to imbibe the required knowledge and skills to seek avenues in employment, to go for higher studies and to know about the subject in an in-depth manner. This indicates that the programme would be appropriate to be offered through ODL mode to acquire specific skills and competence.

5. INSTRUCTIONAL DESIGN

5.1 Definition of Credit Hours: The University follows the system of assigning 30 hours of study per credit of a course. Thus, following this norm, a 4 credit course constitutes a total of 120 hours of study. Out of the total credit hours, a minimum of 10 percent, i.e., minimum 12 hours of counselling per course is offered to the learners at their respective study centres.

5.2 Duration of the Programme: The Bachelor of Social Work (BSW) has six semesters and is of minimum 3 years. However, the maximum duration of the programme is 8 years as stated below:

Minimum Duration : 6 semesters (3 years).

Maximum Duration : 8 years.

In case, a learner is not able to qualify a course in the first attempt, he/ she shall have to qualify in the particular course within the next four attempts, subject to maximum duration of the study.

5.3 Faculty and Support Staff: The University currently has one full time faculty member in the Department of Social Work as Assistant Professor- Dr. Mridusmita Duara (MSW, Bangalore University and PhD, IIT Guwahati).

5.4 Instructional Delivery Mechanisms: The Self Learning Materials have been prepared keeping in view of the requirements of learners of the ODL mode. Particular attention has been given so that the basic three domains of knowledge, viz., behavioural domain, cognitive domain, and constructive domain can be addressed. A few examples have been mentioned in the following table :

Domain of Knowledge	General Learning Tasks generally used	Contents in Self Learning Materials
Behavioural	Memorising Undertaking Routine Tasks Learning arbitrary information Learning rule systems Invariable (Routine) learning procedures	Social work involves both theory and practice. Thus certain theoretical propositions and field work experience is to be combined in the learning process.
Cognitive	Classifying Concept learning Problem-solving Procedures Reasoning and argument Rules	There is ample scope in this domain of knowledge. Most of the theories in social work are practised based. Certain portion of the syllabi is also quantitative based, and hence offers scope for the development of problem

		solving abilities.
Constructive	Case Studies Complex Situations Real-world Problem-solving	Certain real-world situations are included in the programme. For example, in the discussion of theories related to market, development policies etc., students are advised to draw evidences from real world situations.

5.5 Learner Support Services:

The learner support services available in the BSW programme include the following:

1. Self-Learning Materials covering the entire syllabi,
2. Counselling sessions at study centres,
3. Access to library services at study centres and the Central Library of the University as well,

The newly constituted CIQA office as per UGC guidelines and the office of the Academic Dean would upload the Academic Plan and month wise Academic Calendar to enable the learners to plan their studies and activities accordingly.

6.8 Evaluation

The University adopts both ongoing and term end evaluation. Ongoing evaluation would be conducted in two modes: internal and external. The internal evaluation is to be undertaken by the learner himself. For this, the University has designed some Check Your Progress questions, which would help the learners to self-check his progress of study. However, this would be

undertaken at the learners' end themselves and is non-credit based. For overall evaluation of a course, the University follows the two types of evaluation:

Continuous Evaluation (Assignments) : Weightage assigned 20%.

Term End Evaluation (Semester-end Examinations) : Weightage assigned 80%.

- The learners will have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres evaluate the assignments and return them to the learners with feedback.
- Term end examinations will be conducted on scheduled dates at selected examinations centres. Evaluations are done by the external examiners at zonal centres. After evaluation, further scrutiny is done, followed by moderation. Results are declared within scheduled dates as laid down in the Activity Planner.
- Learners will be able to get their scripts re-evaluated if they are not satisfied with evaluation.
- Questions for the Semester End paper will be set as per the Evaluation policy of the University to have coverage of all the modules of the respective courses.
- The University is in the process of using high security and eco-friendly synthetic (water proof and termite proof) papers for marksheets and certificates. Moreover, use of interactive kiosk at study centres for issue of admit cards and modification of the existing EDPS system for quick publication of results of examinations are also being planned. Similarly, introduction of biometric identity of learners is also being planned
- The field work of the BSW learners will be evaluated by the study centre counsellors based on the field work reports submitted to the study centres and viva.

8. COST ESTIMATE OF THE PROGRAMME AND PROVISIONS

The office of the Finance Officer of KKHSOU keeps all the records of finances regarding print of SLMs, honorarium paid to the members of the Expert Committee, honorarium to be paid to Content Writers, Content Editors, Language Editors, Translators, Proof Readers and also the expenditure related with organizing counsellors' workshops, meeting of the co-ordinators of the study centres etc. Moreover, the finance office also maintains records of purchase of computers, online space, books, journals etc. The accounts are maintained as per the laid down procedures of government. As regards, the cost of programme development, programme delivery, and programme maintenance, the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the BSW Programme of KKHSOU.

8.1 Programme Development Cost:

SLM Development Cost for Under Graduate programme (English medium) per Unit Rs. 5,500/-

Printing Cost per SLM Rs. 56/-

Cost of CD per Unit Rs. 23/-

8.2 Programme Delivery Cost:

The SLMs prepared have to be delivered to various study centres located at the far flung remote areas. On an average, the University delivers about 15 kgs of study materials per student. The cost of delivery of 1 kg of such material is Rs.10. Accordingly, depending upon the number of candidates, the cost for the BSW programme will be provisioned by the University. The office of the Finance Officer has calculated the delivery cost of SLM per student at Rs. 150.

8.3 Programme Maintenance Cost:

The University will keep financial provision for organizing stake holders' meetings, counselling workshops etc. as per the Academic Plan and Academic Calendar approved by the Academic Council of the University. The workshops conducted by the University will not only benefit the learners of the programme, but will also benefit the learners of other programmes. The University will also bear the cost of organizing the meeting of Syllabus Revision Committee etc. and also for supply of additional study materials if required for improving the quality of the programme. Moreover, the University will keep on investing in developing the IT infrastructure so that the learners can benefit from the ICT enabled programme. The cost calculated by the office of Finance Officer as regards maintenance of Arts programmes per student is Rs. 600/-

The figures as indicated above will be applicable for the BSW Programme of the University. The University will keep adequate financial provision for development, delivery, and maintenance of the programme presented as per the Programme Project Report.

9. QUALITY ASSURANCE MECHANISM AND EXPECTED PROGRAMME OUTCOMES:

9.1 Quality Assurance Mechanism:

With regard to the quality concerns of the course materials, the department is involved in the following activities:

The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due

approval from the University authority, this Expert Committee is helped by the in-house department faculties while preparing the framework of the programme.

The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of 15 Units) to the assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also write Units, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.

The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, examine the content of the Units and provide their suggestions and feedbacks to be included by the coordinator of the programme.

The materials are sent to the Language Editor, who then give their necessary suggestions to be incorporated by the coordinator of the particular programme. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.

Field work of BSW learners is to be monitored and evaluated by the study centre counsellors based on the field work reports submitted and a viva (each semester).

The newly constituted CIQA Office has conducted stakeholders meeting; SLM Audit and Counselling Workshops which is expected to provide the University and the Department with required inputs for quality enhancement.

In order to keep the programme updated, the programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected Programme Outcomes:

The BSW Programme would enable the learners to acquire knowledge on the social work profession based on region specific and case specific issues. It will prepare learners for further research and to pursue higher studies in this line.

The programme will also help the learners to seek avenues in the development sector and/or other upcoming sectors. The programme will enable the learners to engage with the society in a fruitful manner leading to the welfare of all and thus contribute to the betterment of the society.

During the counselling sessions face-to-face mode of interaction between the learners and counsellor take place. This enables the learners to clear doubts with regard to any units or course provided to them. Generally 15 counselling sessions take place for a course in each semester.

6.3 Evaluation

- i. The University adopts both ongoing and term-end evaluation. Ongoing evaluation is conducted in two modes: internal and external. The internal evaluation is to be undertaken by the learner himself. For this, the University has designed some Check Your Progress Questions in every unit of SLMs, which would help the learners to self-check his/her progress of study. However, this is undertaken at the learners' end themselves and is non-credit based. External method is done through home assignment.
- ii. For each course assignments are given for continuous assessment of the learners. Assignment should be hand written and it should be submitted on time in the study centers. In the term-end examinations, 20% weightage comes from the assignments and 80% from the written examination. Non-receipt of assignments in time may lead to withholding of final result. The learners have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres evaluate the assignments and return them to the learners with feedback.
- iii. The University conducts term-end examination once for odd semesters and once for even semesters in a year. The learner can take the examination only after the minimum period prescribed for the course of study. Questions for the Semester End paper would be set as per the Evaluation Policy of the University to have coverage of all the modules of the respective courses.

- iv. Examination dates schedule indicating the date and time of examination for each course is sent to all the study centres in advance, the same is also notified in the university website. Mobile apps is also used to send SMS alerts to the learners.
- v. Learners would be able to get their scripts re-evaluated if they are not satisfied with evaluation.
- vi. The University is in the process of using high security and eco-friendly synthetic (water proof and termite proof) papers for mark sheets and certificates. Moreover, uses of interactive kiosk at study centres for issue of admit card and modification of the existing EDPS system for quick publication of results of examinations are also being planned. Similarly, introduction of biometric identity of learners is also being planned.

As regards, the cost of programme development, programme delivery, and programme maintenance, the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the MA Programme in Assamese.

8.1 Programme Development Cost: Rs. 16,64,320.00

The office of the Finance Officer of KKHSOU has worked out the following also.

9. Quality Assurance Mechanism and Expected Programme Outcomes

9.1 Quality Assurance Mechanism: As quality assurance mechanism, the department has taken some steps which can be mentioned below:

- i. The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee is helped by the in-house department faculties while preparing the framework of the programme.
- ii. The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of 14 units) to the

assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.

- iii. The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- iv. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.
- v. The newly constituted CIQA Office is planning to conduct stakeholders' meeting, SLM and Counselling Workshops which is expected to provide the University and the Department with required inputs for quality enhancement.
- vi. In order to keep the programme updated, the programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected Programme Outcomes: The outcomes of the programme are manifold:

- i. It will enable the learners to acquire knowledge enabling them to articulate well the latest developments in Assamese language and literature.

6.6 Financial Assistance: The University offers free education to jail inmates and differently abled learners. At present, the University offers free of cost education to jail inmates in 16 district jails of the state.

6.7 Refusal/Cancellation of Admission: Information brochure and Notwithstanding anything contained in the prospectus the University reserved the right to refuse or cancel Admission of any Individual.

6.8 Curriculum Transaction and Activity Planner: An activity planner, that guides the overall academic activities in the MA programme in Economics shall be made available prior to the admission schedule of the University.

6.9 The Evaluation System of the Programme: The University adopts both ongoing and term end evaluation. Ongoing evaluation is conducted in two ways: internal and external. The internal evaluation is to be undertaken by the learner himself. For this, the University has designed some self-check “Check Your Progress” questions, which would help the learners to self-check their progress of study. However, this is undertaken at the learners’ end themselves and is non-credit based. For overall evaluation of a course, the University follows two types of evaluation:

Continuous Evaluation (Home Assignments)	: Weightage assigned 20%.
Term End Evaluation (Semester-end Examinations)	: Weightage assigned 80%.

The learners have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres evaluate the assignments and return them to the learners with feedback.

Term end examinations are conducted on scheduled dates at select examinations centres. Evaluations are done by the external examiners at zonal centres. After evaluation, further scrutiny is done, followed by moderation. Results are declared within scheduled dates as laid down in the Activity Planner.

Learners can opt for re-evaluation of their answer script (within a stipulated time) if they are not satisfied with the evaluation outcome.

7 REQUIREMENT OF LABORATORY SUPPORT AND LIBRARY RESOURCES

7.1 Laboratory Support: Economics being a theoretical discipline requires no laboratory services.

7.2 Library Resources: Library services are offered to the learners through physical library facilities set up by the University at the respective study centres. Reference books are suggested by the faculty members of the University, and are supplied to the libraries located at the study centres.

The Central Library, Krishna Kanta Handiqui State Open University plays a vital role in the collection, development and dissemination of academic, scientific and technical information to meet the present and future needs of the University.

8. COST ESTIMATE OF THE PROGRAMME AND THE PROVISIONS

The office of the Finance Officer of KKHSOU keeps all the records of finances regarding print of SLMs, honorarium paid to the members of the Expert Committee, honorarium to be paid to Content Writers, Content Editors, Language Editors, Translators, Proof Readers and also the expenditure related with organizing counsellors' workshops, meeting of the co-ordinators of the study centres etc. Moreover, the finance office also maintains records of purchase of computers, online space, books, journals etc. The accounts are maintained as per the laid down procedures of government. As regards, the cost of programme development, programme delivery, and programme maintenance, the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the MA in Economics programme of KKHSOU.

8.1 Programme Development Cost:

- (a) Cost of SLM Development (In English medium only): Rs. 7,300.00 per unit.
- (b) Printing Cost per SLM Rs. 56/-
- (c) Cost of CD per unit Rs. 23/-

8.2 Programme Delivery Cost:

The SLMs prepared have to be delivered to various study centres located at the far flung remote areas. On an average, the University delivers about 15 kgs of study materials per student. The cost of delivery of 1 kg of such material is Rs.10. Accordingly, depending upon the number of candidates, the cost for the MA in Economics programme will be provisioned by the University. The office of the Finance Officer has calculated the delivery cost of SLM per student at Rs. 150.00.

8.3 Programme Maintenance Cost:

The University will keep financial provision for organizing stakeholders' meetings, counselling workshops etc. as per the Academic Plan and Academic Calendar approved by the Academic Council of the University. The workshops conducted by the University will not only benefit the learners of the programme, but will also benefit the learners of other programmes. The

University will also bear the cost of organizing the meeting of Syllabus Revision Committee etc. and also for supply of additional study materials if required for improving the quality of the programme. Moreover, the University will keep on investing in developing the IT infrastructure so that the learners can benefit from the ICT enabled programme. The cost calculated by the office of Finance Officer as regards maintenance of Master Degree programmes is Rs. 1,600.00.

9 QUALITY ASSURANCE MECHANISM AND EXPECTED PROGRAMME OUTCOMES

9.1 Quality Assurance Mechanism: With regard to the quality concerns of the course materials, the department is involved in the following activities:

- (a) The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee is helped by the in-house department faculties while preparing the framework of the programme.
- (b) The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of a minimum of 14 units) to the assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly faculty members of the PG programmes from higher educational institutions.
- (c) The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- (d) The SLMs of the MA in Economics programme is prepared in English only. However, learners are allowed to write answers in the Examinations in Assamese as well.
- (e) The newly constituted CIQA Office is planning to conduct stakeholders meeting; SLM and Counselling Workshops which is expected to provide the University and the Department with required inputs for quality enhancement.
- (f) In order to keep the programme updated, the programme is revised and necessary changes are incorporated for the benefit of the learners.

9.2 Expected Programme Outcomes: The outcomes of the programme are manifold:

- (a) It will enable the learners to acquire knowledge enabling them to articulate well the condition around them.

- (b) The programme will also help the learners to seek employment avenues in the development sector and/or other upcoming sectors like banking, insurance and other service sectors.
- (c) The programme will also encourage the learners to go for research in the field of Economics and Developmental Studies.
- (d) The programme will enable the learners to undertake a teaching job up to the Post Graduation level subject to fulfilment of other eligibility criteria.
- (e) The programme will enable the learners to engage with the society in a fruitful manner leading to the welfare of all and thus contribute to the betterment of the society.

As far as the audio/audio-visual production is concerned, the learner will have to prepare an audio (for example, radio drama) or audio-visual clip on any area of communication/media along with a script. The audio clip can be submitted in AVI, MP3 or in WAV format. Audio-visual files can be submitted in MPEG, MP4, m4v, DAT or VOB formats.

Detailed syllabus of the courses have been attached in *Annexure II* of this report.

5.8 Duration of the programme: The M.A programme in Journalism and Mass Communication has four semesters and is of minimum 2 years. However, the maximum duration of the programme is 6 years as stated below:

- Minimum Duration : 4 semesters (2 years).
- Maximum Duration : 6 years.

In case, a learner is not able to qualify a course in the first attempt, he/she shall have to qualify in the particular course within the next four attempts, subject to maximum duration of the study.

5.9 Faculty and support staff requirement: The University currently has two Assistant Professors in the Department of Journalism and Mass Communication, viz., one Assistant Professor. The resources are mobilized from other Universities in the region as far as writing of self learning materials are concerned. The required support services are extended by KKHSOU. For the purpose of editing of audio/audio-visual materials, services are provided by the Multimedia section of the university which has one production assistant and two editors (for editing the audio/audio- visual study materials).

5.10 Instructional Delivery Mechanism: The Self Learning Materials have been prepared keeping in view of the requirements of UGC. Particular attention has been given so that the basic three domains of knowledge, viz., behavioural domain, cognitive domain, and constructive domain can be addressed. A few examples have been mentioned in the following table.

Domain of Knowledge	General Learning Tasks generally used	Contents in Self Learning Materials
Behavioural	<ul style="list-style-type: none"> • Memorising • Undertaking Routine Tasks • Learning arbitrary information • Learning rule systems • Invariable (Routine) learning procedures 	<ul style="list-style-type: none"> • Journalism and Mass Communication is a professional subject. As such, there are certain field based topics (practical), theoretical propositions and concepts, which needs to be memorised.
Cognitive	<ul style="list-style-type: none"> • Classifying • Concept learning • Problem-solving • Procedures • Reasoning and argument • Rules 	<ul style="list-style-type: none"> • There is ample scope in this domain of knowledge. Most of the theories in Journalism and Mass Communication are conceptual. Certain portion of the syllabi is also quantitative based (specially relating to the area of communication research) and hence offers scope for the development of problem solving abilities.
Constructive	<ul style="list-style-type: none"> • Case Studies • Complex Situations • Real-world Problem-solving 	<ul style="list-style-type: none"> • Certain real-world situations are included in the course. For example, in the discussion of theories related to media scenario, students are advised to draw evidences from real world situations.

Since Mass Communication and Journalism is basically a professional subject, so the curriculum has been designed by incorporating certain practical based units. Apart from the provision of self-learning materials, CDs are also distributed to the different study centres for the utilization of the learners. These are basically pre-recorded audio-visual CDs containing discussions on a range of issues pertaining to the area of Journalism and Mass Communication. In order to evaluate the learner's engagement in the different areas of Journalism and Mass Communication, assignments are given to the learners from where 20% of the marks are added to the final examination result. Various online social learning platforms are in place in order to respond to the learners' queries. Online communication tools like emails are a way of keeping in touch with the learners.

Blended learning in the field of distance education makes use of personal contact programmes along with the online mode of instructional delivery system supported by ICT. Blended learning increases the options for greater quality and quantity of human interaction in a learning environment. It offers the learners to be 'both together and apart'. **Traditional on-campus learning** consists of face-to-face learning (counselling sessions) which is imparted to the learners at the study centres by the instructors (subject specific teachers of the government recognized colleges). The University also makes use of both synchronous and asynchronous learning technologies through the medium of **online learning**. Synchronous learning refers to the exchange of ideas and information with one or more participants during the same period like face-to-face discussion, skype conversations, chat rooms etc. Asynchronous learning makes use of certain technologies/online platforms like email, blogs, wikis, discussion boards, web-supported textbooks.

5.11 Identification of Media –print, audio or video, online, computer aided:

The different facets of new media technologies have been analysed in the following way-

- a) **Learning through community radio (e-Jnan Taranga):** Community radio was launched on 28th January, 2009, but it was officially launched on 20th November, 2010. Known as Jnan Taranga, the radio can be heard at 90.4 MHz. The community radio is an important platform for the broadcast of educational programmes which includes debates, discussions and talk shows. For the purpose of having a wider networked community, the University launched the internet version of the community radio on 20th November, 2010 known as e-Jnan Taranga. Different academic programmes are broadcast over the internet radio with special focus on issues like health & hygiene, women empowerment, rights of the children, environment and bio-diversity, career counselling, sports, legal issues, governance, youth programmes and agriculture.
- b) **Provision of e-Resource and e-Learning Portal:** The central library of KKHSOU maintains an e-Resource Portal. Journals, Dictionaries, Thesauruses, Encyclopaedias and e-books are available at the

respective site. One can access the different online journals at JSTOR and JGATE databases. Apart from the aforementioned databases, one can gain access to the SAGE journals. The **Open Access Journals Search Engine (OAJSE)**, (<http://www.oajse.com/>), an Open Access e-Journal Portal of Krishna Kanta Handiqui State Open University provides access to innumerable journals and articles to numerous academicians and learners.

The Open Access e-Journal Portal of KKHSOU provides access to over 4,100 Open Access Journals. The website of the KKHSOU has also facilitated the downloading of important materials like home assignments, admission forms, old question papers, important notices of the University etc. The website also includes the customized study centre search facility based on district or programme.

c)SMS alert services: SMS alert facility is a part of mobile learning system where learners can subscribe for up to date news and other announcements of the university. Learners can subscribe as free SMSs via email. The people who subscribe to the email alerts get updated about the examination routine, syllabus etc.

d)Social media as an interactive platform : Information about the functioning of the University, examination routine, course curriculum etc. are easily available through various social networking platforms like Facebook (<https://www.facebook.com/groups/272636986264210/>) and Twitter (<https://twitter.com/kkhsou>). The members of the social networking sites can log on to the home page of the University and can post comments, queries or start a discussion on any topic of interest.

e)Availability of online job portal: In order to create awareness among the masses about the different job opportunities, KKHSOU job portal (<http://www.kkhsoujobportal.in/>) was inaugurated in 2013. Within a period of two years, it has been able to garner the support of the learners who have given positive feedback regarding its functioning. Its importance can be gauged from the fact that the portal won the 5th e-North East Award for the year 2014 in the category of e-livelihood and enterprise.

f) Availability of E-SLM: Study materials from different subjects including Journalism and Mass Communication have been uploaded in online format (<http://eslm.kkhsou.in/?dir=DEGREE/BA>) for the benefit of the learners. Online audio lectures of Mass Communication (<http://www.kkhsou.in/web/QuestionPaperRepository/AllFiles/?dir=Audio%20Lectures/Mass%20Communication>) have been made available in the website of K.K Handiqui State Open University. These lectures have been recorded at the community radio station's studio of the University where experts have deliberated and discussed on different issues of Journalism and Mass Communication.

All the learners are provided with Self Learning Materials, which is comprehensive in terms of contents in the syllabi. These learning resources are prepared with the help of resource persons across the country. Senior Professors from different Universities of the region are engaged as Editors of the SLMs.

Apart from the printed Self Learning Materials, audio and video materials on certain modules are also offered to the learners. In addition, certain topics are also covered through community radio programmes broadcast through the *90.4 FM Jnan Taranga* Community Service Station of the University.

Eklavya, a radio programme that is broadcast from All India Radio Station, Guwahati and simultaneously broadcasted by All India Radio Station, Dibrugarh, also covers topics on Mass Communication and Journalism and personal enrichment.

Live Phone-in-programme is broadcast by All India Radio, Guwahati each Thursday (9.15 am – 10.15 am). In this programme, learners can get live support to their queries, while the general public in general can also interact with officials/faculty members of the University on various issues.

Most of the Audio-Visual programmes are also made available online through YouTube videos.

5.12 Learners Support Services: Learner support services comprises all the assistance provided by a distance education system to the learners so that they don't feel isolated from the educational system and get adequate academic and administrative support to make the system at par with the face to face mode of conventional education. The learners' support services available in the BA programme in Journalism and Mass Communication consist of both ICT and non-ICT based support services (traditional mode of instructional delivery mechanism). The major forms of conventional support services are -

- i. Self-Learning Materials:** These study materials are prepared by a team of experts, each of them belonging to their own area of expertise. A detailed syllabus is prepared by the board of management and the teachers keeping with the changing needs of the society. The material is written in simple language in both English and Assamese language (bilingual) complete with modules and activities. Each of the SLMs are a mix of theory, practical and exercises to be done by the learners.
- ii. Counselling sessions:** Academic counselling sessions are held at study centre every Sunday. Such kind counselling is provided to the learners as the learners are unable to attend regular academic classes like in conventional face to face traditional mode of education.
- iii. Library facilities:** By virtue of the independent learning concept of the distance Educational System, library facilities should occupy an important place in the learner's learning process and form an essential part of support services. KKHSOU has been instrumental in providing library facilities to PhD and MPhil scholars of different departments at the Central Library of the University. They are provided with a library card, with the help of which they can get access to books, journals, thesis etc. in the library. As far as the learners of study centres are concerned, they

are provided with a limited number of books at their respective centres which are accessible to them.

- iv. **Multimedia laboratory facility:** The University has a well equipped state-of-the-art multimedia laboratory facility at its city centre. The multimedia laboratory has audio console, audio mixer and up-to-date editing software (like FCP) for the purpose of audio and audio-visual editing. Though such facilities are yet to be availed by the learners at different study centres, yet they can make use of the facilities at the editing suite situated at the city centre of the University.
- v. **ICT Support:** ICT support is a major component of any ODL system of education. Our University has given emphasis on this important aspect of delivery mechanism. Some of the ICT based support systems provided by the University for the learners of MA in Journalism and Mass Communication are listed below-

6.7 Evaluation system of the programme

- a) The University adopts both ongoing and term end evaluation. Ongoing evaluation is conducted in two modes: internal and external. The internal evaluation is to be undertaken by the learner himself. For this, the University has designed some Check Your Progress questions, which would help the learners to self-check his progress of study. However, this is undertaken at the learners' end themselves and is non-credit based. For overall evaluation of a course, the University follows the two types of evaluation:

Continuous Evaluation (Assignments) : Weightage assigned 20%.

Term End Evaluation (Semester-end Examinations) : Weightage assigned 80%.

scrutiny is done, followed by moderation. Results are declared within scheduled dates as laid down in the Activity Planner.

- d) Learners would be able to get their scripts re-evaluated if they are not satisfied with evaluation.
- e) Questions for the Semester end paper would be set as per the Evaluation policy of the University to have coverage of all the modules of the respective courses.

Moreover uses of interactive kiosk at study centres for issue of admit cards and modification of the existing EDPS (Examination Data Processing System) for quick publication of results of examinations is also being planned. Similarly, introduction of biometric identity of learners is also being planned.

7. REQUIREMENT OF THE LABORATORY SUPPORT AND LIBRARY RESOURCES:

Since the MA in Journalism and Mass Communication programme requires practical based courses to be integrated with conventional text based courses, so laboratory and library facilities are an important requirement in this area. A state-of-the-art editing room has been constituted at the city office of the University located at Housefed Complex, Beltola for the purpose of editing audio and video programme. A well stocked library connected with wi-fi is also necessary to browse through reference books as well as online journals. This is because most of the books pertaining to the area of mass communication and journalism are widely available in the Western countries making it difficult for learners from developing countries like India to procure them as they are pretty expensive. It is worth mentioning here that K.K. Handiqui State Open University has a Central Library of its own which is situated at the University headquarters at Rani, Guwahati. Library services are offered to the learners through physical library facilities set up by the University at the respective study centres. Reference books are suggested by the faculty members of the University, and are supplied to the libraries located at the study centres. Some of the important subject specific books that are widely available at the central library are –

- a) Aggarwal, VirBala, V.S Gupta (2002). *Handbook of Journalism and Mass Communication*. New Delhi: Concept Publishing Company.
- b) Adler, Ronald B., Rodman, George R. (2000). *Understanding Human Communication*. Harcourt Brace College Publishers.

- c) DeVito, Joseph A. (2002) *Essentials of Human Communication*. Boston: Allyn & Bacon.

- e) Kumar, Keval J. (2006). *Mass Communication in India*. Mumbai: Jaico Publishing House.
- f) Moran, Terence P. (2010). *Introduction to the History of Communication*. New York: Peter Lang Publishing.
- g) Narula, Uma (2001). *Mass Communication: Theory and Practice*. New Delhi: Har-Anand publications Pvt. Ltd.

As regards, the cost of programme development, programme delivery, and programme maintenance, the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the MA programme on Journalism and Mass Communication.

8.1 Programme Development Cost: Rs.17,52,000.00

The cost of delivery of 1 kg of such material is Rs.10. Accordingly, depending upon the number of candidates, the cost for the MA in Journalism and Mass Communication programme will be provisioned by the University. The office of the Finance Officer has calculated the delivery cost of SLM per student at Rs. 150/-.

8.3 Programme Maintenance Cost:

The University will keep financial provision for organizing stake holders' meetings, counselling workshops etc. as per the Academic Plan and Academic Calendar approved by the Academic Council of the University. The workshops conducted by the University will not only benefit the learners of the programme, but will also benefit the learners of other programmes. The University will also bear the cost of organizing the meeting of Syllabus Revision Committee etc. and also for supply of additional study materials if required for improving the quality of the programme. Moreover, the University will keep on investing in developing the IT infrastructure so that the learners can benefit from the ICT enabled programme.

9 QUALITY ASSURANCE MECHANISM AND EXPECTED PROGRAMME OUTCOMES:

9.1 Quality Assurance Mechanism: With regard to the quality concerns of the course materials, the department is involved in the following activities:

- a) The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and

professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee (CCS) is helped by the in-house department faculties while preparing the framework of the programme.

- b) The next step after the completion of the framework preparation is the allotment of the assigned papers (which is again composed of 15 units) to the assigned authors. The in-house faculty prepares a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.
- c) The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- d) Since the MA programme in Journalism and Mass Communication is prepared in a bi-lingual format, the units post content editing are then sent for Assamese translation to a select list of outsourced translators. Later, the materials are sent to the Language Editor, who then looks into the contents of the material written in Assamese and give their necessary suggestions to be incorporated by the coordinator of the particular programme. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.
- e) The newly constituted CIQA (Centre for Internal Quality Assessment) Office conducts stakeholders meeting; SLM Audit and Counseling Workshops which is expected to provide the University and the Department with required inputs for quality enhancement.
- f) In order to keep the programme updated, the programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected Programme Outcomes: The outcomes of the programme are manifold:

- a) It will enable the learners to acquire knowledge enabling them to articulate well the condition around them.
- b) The programme will also help the learners to seek avenues in the media sector and/or other upcoming sectors like animation and entertainment sectors and other service sectors.
- c) The programme will also encourage the learners to go for higher studies.
- d) The programme will enable the learners to engage with the society in a fruitful manner leading to the welfare of all and thus contribute to the betterment of the society.

9. Quality Assurance Mechanism and Expected Programme Outcomes

9.1 Quality Assurance Mechanism

Regarding the issue of quality maintenance and quality assurance, the syllabus in Political Science has been upgraded as per the latest UGC guidelines with the help of subject experts as indicted earlier. Accordingly, based on the revised syllabus, new and updated Self Learning Materials are being prepared. The overall quality assurance of the MA programme in Political Science is looked into by the Centre for Internal Quality Assurance (CIQA), KKHSOU and the office of the Dean (Academic), KKHSOU. In the academic year 2018-19, SLM Quality Audit is also planned by the office of the CIQA at KKHSOU. The University has purchased the URKUND anti-plagiarism software whereby the newly prepared units of the revised SLMs will be subject to plagiarism check to ensure originality in writing. Moreover, workshops for counsellors and stakeholders' meetings have also been initiated. It is expected that these efforts would help the University in enhancing the quality of the programme.

Paper XVI: DISSERTATION

During the duration of the fourth semester, a learner has to prepare and submit a dissertation under the guidance of a qualified supervisor (either a faculty in the department of Political Science in the study center of the University or a faculty in the Department of Political Science of KKHSOU). The learner may take up a problem related to the realm of Political Science. The learner has to follow a scientific methodology based on the adoption of relevant tools and techniques for data collection, data analysis and data interpretation and prepare a research project. Subsequently, a viva-voce shall be held on the dissertation submitted. The dissertation aims at giving a research oriented perspective to the learner, who in the process of preparing the dissertation, would gain valuable insight into the contemporary post-behavioural approach of doing research whereby both empirical and normative dimensions are sought to be harmoniously synthesized. The elementary research training received under the guidance of an able supervisor would help the learners to go for further research in the future either in the same field or otherwise. The necessary guidelines and other relevant information regarding preparation and submission of the dissertation shall be made available on the website of the University.

The syllabus of the programme is framed and updated from time to time by Senior Experts of the subject for preparation of quality study materials. For disseminating knowledge to the

learners, the department provides Self Learning Materials (SLMs) written in lucid, easy to understand language, written by carefully selected content writers from the discipline. The **Block and Course Introduction** given in the first four pages of the SLM gives an idea on the overall course and the units to be discussed in that particular block of the Study Material. The **Units** in the SLM are written in conversational style with elaborations and examples for better understanding. In every unit there are **Check Your Progress** sections where a learner can evaluate himself/herself. Apart from that, the **Let Us Know** sections in the units' gives elaborations on difficult concepts, terms, so on and so forth. Further to make the units interesting, the content writers are requested to include an **Activity Section** to stimulate the learners to draw connection between the concepts they learn and their observation of in their surroundings. The **Let Us Sum Up** Section, given towards the end of the unit, summaries the entire unit/chapter in bullet points which are again very easy to understand and helps the learners to revise what he/she has learned in the unit. **The Model Questions** given at the end of the units help the learners to get an idea of the Questions that may be asked in the examinations or the answers of certain questions that they are expected to know after reading the unit. Moreover, the **Further Readings** section directs the learners to additional books which he/she may wish to refer to for more knowledge and information and also for more elaborate understanding. The **References** given at the end of the SLM would also help the learners to get information about the basic and important books relating to the paper/course.

5.2 Duration of the Programme:

As mentioned before, the MA (Sociology) programme has four semesters and is of minimum 2 years. The programme has 4 courses in each semester carrying 100 marks (80+20) i.e for 4 semesters the programme will have 16 courses with a Dissertation Project. However, the maximum duration of the programme is 6 years according to the rules of the University.

- Minimum Duration :4 semesters (2 years).

However, this is undertaken at the learners' end themselves and is non-credit based.
- b) Self-assessment exercises within each unit of study.
- c) Continuous evaluation mainly through assignments which are tutor-marked, practical assignments and seminar/workshops/extended contact programmes
- d) For overall evaluation of a course, the University follows the two types of evaluation:

Continuous Evaluation (Assignments)	: Weightage assigned 20%.
Term End Evaluation (Semester-end Examinations)	: Weightage assigned 80%.
- e) The learners have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres evaluate the assignments and return them to the learners with feedback.
- f) Term end examinations are conducted on scheduled dates at selected examinations centres. Evaluations are done by the external examiners at zonal centres. After evaluation, further scrutiny is done, followed by moderation. Results are declared within scheduled dates as laid down in the Activity Planner.
- g) Learners would be able to get their scripts re-evaluated if they are not satisfied with evaluation.
- h) Questions for the Semester End paper would be set as per the Evaluation policy of the University to have a coverage of all the modules of the respective courses.
- i) The University is in the process of using high security and eco-friendly synthetic (water proof and termite proof) papers for mark sheets and certificates. Moreover, use of interactive kiosk at study centres for issue of admit card and modification of the existing EDPS system for quick publication of results of examinations are also being planned. Similarly, introduction of biometric identity of learners is also being planned
- j) Project work (200 marks with 8 credit). The evaluation of learners depends upon various instructional activities undertaken by them. A learner has to write assignment responses

compulsorily before taking term-end examination from time to time to complete an academic programme.

The internal evaluation is to be undertaken by the learner himself. For this, the University has designed some Check Your Progress questions which are included while preparing the units of SLMs. This would help the learners to self-check his/ her progress of study. However, this is undertaken at the learners' end themselves and is non-credit based.
- b) Continuous evaluation mainly through assignments which are tutor-marked, practical assignments and seminar/workshops/extended contact programmes.
- c) For overall evaluation of a course, the University follows the two types of evaluation:

- Continuous Evaluation (Home Assignments): Weightage assigned 20%.
 - Term End Evaluation (Semester-end Examination) : Weightage assigned 80%
- d) The learners have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres would evaluate the assignments and return them to the learners with feedback. Term- end examinations would be conducted on scheduled dates at select examinations centres. Evaluations are done by the External Examiners at zonal centres. After evaluation, further scrutiny is done, followed by moderation. Results are declared within scheduled dates as laid down in the Activity Planner.
- e) Learners would be able to get their scripts re-evaluated if they are not satisfied with evaluation.
- f) Questions for the Term- end paper would be set as per the Evaluation policy of the University to have coverage of all the modules of the respective courses.

Formed with due approval from the University authority, this Expert Committee is helped by the in-house department faculties while preparing the framework of the programme.

- The next step after the completion of the framework preparation is the allotment of the courses (which is again composed of 15 units) to the assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.

- The content editors are then roped in for the next round. The content editors, who are mostly senior academicians from reputed higher educational institutions, look into the contents of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.

- The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.

- Newly established CIQA office which will take care of the following to enhance the quality of the various facets of the University:

KRISHNA KANTA HANDIQUI STATE OPEN UNIVERSITY**PROGRAMME PROJECT REPORT****MASTER IN COMPUTER APPLICATION (MCA)****1. Programme's Mission & Objectives**

Master of Computer Application (MCA) is a three year post graduate degree programme under semester system. The MCA programme is designed for generating skilled IT post graduate professionals who are capable of taking important roles in industry, academia, entrepreneurship and application. The aim of the programme is to increase the number of IT professionals and academicians in the state of Assam. The MCA programme comprises 23 courses including practical and project work. There are six semesters in this programme, and in each semester, there are 4 courses except the second and sixth semesters. The second and sixth semesters involves one project work and three theory papers.

The objectives of the programme are as follows:

- To produce skilled IT human resources.
- To enhance knowledge and basic computer skills of learners.
- To promote computer literacy among learners.
- To provide better job prospects for computer science graduates.

2. Relevance of the programme with KKHSOU's Mission and Goals

The programme has been designed keeping in mind the needs of the Information Technology Industry. The curriculum and syllabus have been designed with the help of academicians and industry experts incorporating both theory and practical components. While designing the syllabus it is considered that, the learners may come from very poor academic background and

remote geographical areas. One of the main objectives of the University is to provide education to the people of geographically remote locations. As such, it is assumed that this programme will certainly help the university to achieve its objectives.

3. Nature of prospective Target Groups of Learners:

The state of Assam is characterized by rich ethnic and cultural diversity. However, the region suffers from constraints of geographical remoteness and economic underdevelopment. But recently, due to initiatives taken like Advantage Assam, new jobs have been created. A large section of the young generation including girls, women and differently able persons join work at an early age in different sectors like telecom, finance, shopping malls, drugs distributing companies, construction companies, IT, etc. for their livelihood. Most of them are deprived of the opportunity to pursue higher education due to various socio-economic conditions. In this context, the MCA programme can help this section of people for getting access to higher education. The MCA programme also caters to the needs of learners who have a keen interest in computers and computer applications. A degree in computer science will help the learner to bring an advantage to their qualification skill.

4. Appropriateness of the Programme to be conducted in ODL mode to acquire specific Skills and Competence:

It is possible to offer MCA programme in the Open and Distance learning mode like in higher educational institutes such as IGNOU and NIELIT (Previously DOEACC). It is observed that the candidates after completing MCA from IGNOU or 'B/C' level from NIELIT get better job opportunities in government as well as private sectors. The MCA programme of KKHSOU could be offered through carefully designed SLMs, projects and assignments. It is observed that a large number of learners seek admission into this programme in distance mode since all the learning materials are available on the internet as well as in printed form. It could be appropriate to conduct the programme through ODL mode to meet the needs of the learners.

5. Instructional Design:

5.1 Curriculum design: The syllabus is designed with the help of the departmental faculty members along with some subject experts from other reputed universities of Assam. At the time of designing the MCA syllabus, the following members were actively involved:

Sl. No.	Name	Designation	Organization
1	Prof. Anjana Kakoti Mahanta	Professor & Head, Dept. of Computer Science, Dean Faculty of Technology	Gauhati University
2	Prof. Pran Hari Talukdar	(Retd.) Professor & Head, Dept. of Instrumentation & USIC	Gauhati University
3.	Prof. Jyotiprokash Goswami	Associate Professor, Dept. of Computer Applications	Assam Engineering College
4	Prof. Sikhar Kumar Sarma	Registrar & Professor	Cotton University
5.	Dr. Sanjib Kr. Kalita	Assistant Professor, Dept. of Computer Science	Gauhati University
6	Dr. Tapashi Kashyap Das	Assistant Professor, Dept. of Computer Science	KKHSOU
7	Sruti Sruba Bharali	Assistant Professor, Dept. of Computer Science	KKHSOU

The syllabus is designed in such a way that even without any prerequisite computer knowledge, learners can take admission in this course.

5.2 Course and Credits distribution: The semester-wise structure of the MCA programme for different courses is enclosed in **Annexure I** and detailed course wise syllabus is enclosed in **Annexure II**.

5.3 Credit hours: The University follows the system of assigning 30 hours of study per credit of a course. Thus, following this norm, a 4-credit course constitutes a total of 120 hours of study. Out of the total credit hours, a minimum of 10 percent, i.e., minimum 12 hours of counseling per course, is offered to the learners at their respective study centre's.

5.4 Duration of the programme: The MCA programme is of minimum 3 years duration and to be completed in six semesters. However, the maximum duration for completion of the programme is 8 years.

8. Cost estimate of the Programme and the Provisions:

The office of the Finance Officer of KKHSOU keeps all the records of finances regarding printing of SLMs, honorarium paid to the members of the Expert Committee, honorarium to be paid to Content Writers, Content Editors, Language Editors, Translators, Proof Readers, and the expenditure related to organizing counsellors’ workshops, meeting of the co-coordinators of the study centre’s etc. Moreover, the finance office also maintains records of purchase of computers, online space, books, journals etc. The accounts are maintained as per the laid down procedures of government. Regarding the cost of programme development, programme delivery, and programme maintenance, the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the MCA Programme.

8.1. Programme Development Cost:

The office of the Finance Officer of KKHSOU has worked out the following cost details:

- a. SLM Development Cost for Master Degree Programme per UNIT - Rs. 7,300/-
- b. Printing Cost per SLM- Rs. 56/-
- c. Cost of CD per UNIT-Rs. 23/-

8.2 Programme Delivery Cost:

The SLMs prepared are to be delivered to various study centre's located at the far-flung remote areas. On an average, the University delivers about 15 kgs of study materials per student. The cost of delivery of 1 kg of such material is Rs.10. Accordingly, depending upon the number of candidates; the cost for the MCA programme will be provisioned by the University. The office of the Finance Officer has calculated the delivery cost of SLM per student at Rs. 150.00.

8.3 Programme Maintenance Cost:

The University will keep financial provisions for organizing stake-holders' meetings, counseling workshops etc. as per the academic plan and academic calendar approved by the Academic Council of the University. The workshops conducted by the university will not only benefit the learners of the MCA programme, but will also benefit the learners of other programmes. The university will also bear the cost of organizing the meeting of Syllabus Revision Committee etc., and also of supplying additional study materials if required for improving the quality of the programme. Moreover, the university will keep on investing in developing the IT infrastructure so that the learners can benefit from the ICT enabled programme. The University will keep adequate financial provision for development, delivery, and maintenance of the programme presented as per the Programme Project Report.

9. Quality Assurance Mechanism and Expected Programme Outcomes:

9.1 Quality Assurance Mechanism:

With regard to the quality concerns of the course materials, the department is involved in the following activities:

- i. The programme design and structure is decided upon after a series of discussions and deliberations with a team of carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert committee is helped by the in-house department faculties while preparing the framework of the programme.
- ii. The next step after the completion of the framework preparation is the allotment of the assigned papers to the assigned authors. The in-house faculty members prepare a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.
- iii. The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units, and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- iv. The newly constituted CIQA Office is planning to conduct stakeholders meeting; SLM and Counseling Workshops which is expected to provide the University and the Department with required inputs for quality enhancement.
- v. In order to keep the programme updated, the programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected programme outcomes:

The outcomes of the MCA programme are manifold. The learners will be able to:

- Pursue higher education programme like M. Tech, M. Phil, Ph.D.
- Work as software developers in government and private sectors
- Work as system analysts
- Work as system/network/database administrators
- Impart the knowledge gained as computer educators
- Open up software firms as entrepreneurs
- Develop dynamic web application and smart phone based applications (mobile apps)

- Set up computer laboratory including computer network installations and configuration
- Maintain and resolve errors of PCs by troubleshooting

KRISHNA KANTA HANDIQUI STATE OPEN UNIVERSITY**PROGRAMME PROJECT REPORT****MASTER OF SCIENCE IN INFORMATION TECHNOLOGY (M.Sc.IT)****1. PROGRAMME MISSION AND OBJECTIVES:**

Master of Science in Information Technology (M.Sc.IT) is a two year post graduate degree programme under semester system. M.Sc.IT programme is designed for generating skilled IT post graduate professionals capable of taking leading roles in industry, academia, entrepreneurship and application. The aim of the programme is to increase the number of skilled IT professionals and academicians in Assam. This programme comprises of 16 courses which includes practical and project work. There are four semesters in this programme, which consists of four courses each semester for the first and third semester. The second and fourth semester consists of three courses and one project work.

The main objectives of the programme are as follows:

- To produce skilled IT human resources.
- To enhance knowledge and basic computer skills of learners.
- To promote computer literacy among learners.
- To provide better job prospects for computer science graduates.

2. RELEVANCE OF THE PROGRAMME WITH KKHSOU'S MISSION AND GOALS:

The programme has been designed keeping in mind the needs of Information Technology Industry. The curriculum and syllabus have been designed with the help of academicians and industry experts incorporating both theory and practical components. While designing the syllabus it is considered that the learners may come from very poor academic background and remote geographical area. One of the main objectives of this university is to provide quality

education to the people of geographically remote location. As such it is assumed that this programme will certainly help the university to achieve its objectives.

3. NATURE OF PROSPECTIVE TARGET GROUP OF LEARNERS:

The state of Assam is characterized by rich ethnic and cultural diversity. However, the region suffers from constraints of geographical remoteness and economic underdevelopment. But recently, due to initiatives taken like Advantage Assam, new jobs have been created. A large section of the young generation including girls, women and differently able persons join work at an early age in different sectors like telecom, finance, shopping malls, drugs distributing companies, construction companies, IT, etc. for their livelihood. Most of them are deprived of the opportunity to pursue higher education due to various socio-economic conditions. In this context, the M.Sc.IT programme can help this section of people for getting access to higher education. The M.Sc.IT programme also caters to the needs of learners who have a keen interest in computers and computer applications. A degree in computer science will help the learner to bring an advantage to their qualification skill.

4. APPROPRIATENESS OF THE PROGRAMME TO BE CONDUCTED IN ODL MODE TO ACQUIRE SPECIFIC SKILL AND COMPETENCE:

It is possible to offer M.Sc.IT programme in the Open and Distance learning mode like in higher educational institutes such as IGNOU and NIELIT (Previously DOEACC). It is observed that the candidates after completing M.Sc.IT from IGNOU or 'B/C' level from NIELIT get better job opportunities in government as well as private sectors. The M.Sc.IT programme of KKHSOU could be offered through carefully designed SLMs, projects and assignments. It is observed that a large number of learners seek admission into this programme in distance mode since all the learning materials are available on the internet. It could be appropriate to conduct the programme through ODL mode to meet the needs of the learners.

5. INSTRUCTIONAL DESIGN:

5.1 Curriculum Design:

The syllabus is designed with the help of the departmental faculty members along with some subject experts from other reputed universities of Assam. At the time designing the M.Sc.IT syllabus the following members were actively involved.

Sl. No.	Name	Designation	Organization

procedures of government. As regards, the cost of programme development, programme delivery, and programme maintenance, the finance office conducted an exercise based on historical costing method to arrive at indicative figures of cost. The findings are presented below in respect of the M.Sc.IT programme.

8.1. Programme Development Cost:

The office of the Finance Officer of KKHSOU has worked out the following details:

- a. SLM Development Cost for Master Degree Programme per UNIT - Rs. 7,300/-
- b. Printing Cost per SLM- Rs. 56/-
- c. Cost of CD per UNIT-Rs. 23/-

8.2 Programme Delivery Cost:

The SLMs prepared have to be delivered to various study centre's located at the far flung remote areas. On an average, the University delivers about 15 kg's of study materials per student. The cost of delivery of 1 kg of such material is Rs.10. Accordingly, depending upon the number of candidates; the cost for the M.Sc.IT programme will be provisioned by the University. The office of the Finance Officer has calculated the delivery cost of SLM per student at Rs. 150/-

8.3 Programme Maintenance Cost:

The University will keep financial provision for organizing stake holders' meetings, counseling workshops etc. as per the academic plan and academic calendar approved by the Academic Council of the university. The workshops conducted by the University will not only benefit the learners of the programme, but will also benefit the learners of other programmes. The university will also bear the cost of organizing the meeting of Syllabus Revision Committee etc. and also for supply of additional study materials if required for improving the quality of the programme. Moreover, the university will keep on investing in developing the IT infrastructure so that the learners can benefit from the ICT enabled programme. The university will keep adequate financial provision for development, delivery, and maintenance of the programme presented as per the Programme Project Report.

9. QUALITY ASSURANCE MECHANISM AND EXPECTED PROGRAMME OUTCOMES:

9.1 Quality Assurance Mechanism:

With regard to the quality concerns of the course materials, the department is involved in the following activities:

- a) The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee is helped by the in-house department faculties while preparing the framework of the programme.
- b) The next step after the completion of the framework preparation is the allotment of the assigned courses to the assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also write the units, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.
- c) The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, examine the content of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- d) The newly constituted CIQA Office is planning to conduct stakeholders' meetings and SLM and Counseling workshops which are expected to provide the University and the Department with required inputs for quality enhancement.
- e) In order to keep the programme updated, the programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected Programme Outcomes:

The outcomes of the M.Sc.IT programme are manifold. The learners will be able to:

- a) Pursue higher education programme like M. Tech, M. Phil, Ph.D.

- b) Work as software developers in govt. and private sectors
- c) Work as system analyst
- d) Work as system/network/database administrator
- e) Impart gained knowledge as computer educators
- f) Open up software firms as entrepreneurs
- g) Develop dynamic web application and smart phone based applications (mobile apps)
- h) Setup computer laboratory including computer network installation and configuration
- i) Maintain and resolve errors of PCs by troubleshooting

PROGRAMME PROJECT REPORT

MASTER OF SOCIAL WORK

1 PROGRAMME'S MISSION AND OBJECTIVES:

Social work is a profession which facilitates, rather empowers individuals, families, and groups, restores or enhances their capacity for social functioning and strives to create societal conditions that support communities in need. Social workers help people overcome some of life's most difficult challenges— poverty, discrimination, abuse, addiction, physical illness, social and emotional crisis like loss, unemployment, educational problems, disability and mental illness. They help prevent such crises and counsel individuals, families, and communities to cope more effectively with the stresses of everyday life. With particular reference to Assam, which is still lagging behind in various aspects of development and facing diversity issues, social work plays a significant role in smoothening and accelerating the development of the region. Social work education should receive special focus for the said reason. Master of Social Work (MSW) would be offer by the Department of Social Work, under Surya Kumar Bhuyan School of Social Sciences, Krishna Kanta Handiqui State Open University (KKHSOU).

1.1 Mission of the MSW programme

The mission of the programme is to promote the profession of social work by educating the learners to become agents of social change; to orient learners for a profession which is committed to social justice and empowerment of individuals, groups and communities; to build up respect for individual and cultural diversities and encourage research in various developmental issues of the region. This course will contribute towards enhancing social work skills using theoretical and practical frameworks. The field-work component and dissertation are significant areas that will be laid extra emphasis on.

1.2 Objectives of the MSW Programme

- i. To infuse generalist social work practice with client systems of individuals, families, groups, organizations, and communities.
- ii. To integrate the values and ethics of the social work profession in accordance with the NAPSWI (National Association of Professional Social Workers in India).
- iii. To provide both the theoretical and applied knowledge of social work to the learners in order to enable them develop their skills and employability.
- iv. To develop analytical skills necessary for understanding forms and mechanisms of oppression and discrimination and apply strategies for social change and justice.

Registrar
 Krishna Kanta Handique

- v. To engage learners in research-informed practice and practice-informed research evaluating programme outcomes and practice effectiveness at all levels.
- vi. To train learners to apply knowledge of human behaviour and the social environment including theories of human behaviour and social systems.

2. RELEVANCE OF THE PROGRAMME WITH KKHSOU'S MISSION AND GOALS:

The Master of Social Work (MSW) to be offered by KKHSOU has been prepared with conformity to the mission and goals of KKHSOU. This programme follows the following mission and goals of KKHSOU:

- i. To expand the higher education to cover the maximum number of population.
- ii. To promote equity or justice in the field of higher education.
- iii. To ensure the quality or excellence in the higher education.
- iv. To increase research both qualitatively and quantitatively.
- v. To contribute towards the psycho-social development of the region.

The MSW programme would contribute towards accomplishment of KKHSOU's mission and goals by providing theoretical and applied knowledge of Social Work to the prospective learners.

3. NATURE OF PROSPECTIVE TARGET GROUPS OF LEARNERS:

The nature of the prospective target groups of learners of this programme are as follows:

- i. The students who wish to obtain a Master Degree in Social Work.
- ii. All the stakeholders of the society like-governmental and non- governmental agents, policy makers, social welfare activists, grass-root workers, who are interested in ensuring a better standard of living, for the under-privileged section of the society.
- iii. Persons who were unable to complete higher education in the normal course of time and who are interested in social work.
- iv. People engaged in different avenues and wish to develop their professional skills.
- v. People living in rural and remote areas and other disadvantageous conditions who desire to complete their higher education.
- vi. People willing to earn for a living and learn at the same time.
- vii. Persons deprived of higher education in conventional system for a variety of reasons.
- viii. Denied and deprived sections of people who need social work education for their uplift.

4. APPROPRIATENESS OF THE PROGRAMME TO BE CONDUCTED IN ODL MODE TO ACQUIRE SPECIFIC SKILLS AND COMPETENCE:

The Master of Social Work (MSW) programme would be both theoretical and practical i.e., having field work component. The programme has been designed keeping in mind the ODL aspect. As such, the learners can learn the different courses through the **Self Learning Materials (SLMs)** designed for the specific programme and also do field-work to be supervised by the counsellors. Certain add-on resources, like CDs, community radio programmes and counselling sessions conducted in the study centres, etc. are expected to help the learners to clarify their doubts, if any. This would enable the learners to imbibe the required knowledge and skills to seek avenues in employment, to go for higher studies and to know about the subject in an in-depth manner. All these measures would make the MSW programme compatible to be offered through the ODL mode.

4.1 Learner Support Services: Identification of Media – Print, Audio or Video, Online, Computer Aided

All the learners are provided with Self Learning Materials, which is comprehensive in terms of contents in the syllabi. These learning resources are prepared with the help of resource persons across the country. Senior Professors from different Universities of the region are engaged as Editors of the SLMs. Apart from the Print Self Learning Materials, audio and video materials on certain modules would also be offered to the learners.

5.3 Definition of Credit Hours:

The University follows the system of assigning 30 hours of study per credit of a course. Thus, following this norm, a 4 credit course constitutes a total of 120 hours of study. Out of the total credit hours, a minimum of 10 percent, i.e., minimum 12 hours of counselling per course is offered to the learners at their respective study centres.

5.4 Duration of the programme:

The Master of Social Work (MSW) has four semesters and is of minimum 2 years.

Minimum Duration : 4 semesters (2 years).

In case, a learner is not able to qualify a course in its first attempt, he/she has to qualify in the particular course within the next four attempts, subject to maximum duration of the study.

5.5 Faculty Strength:

The University currently has one full time faculty member in the Department of Social Work as Assistant Professor. The resources and support services are mobilised accordingly from within and outside the University.

5.6 Instructional Delivery Mechanisms: The Self Learning Materials would be prepared keeping in view of the above definition of instructional design. Particular attention would be given so that the basic three domains of knowledge, viz., behavioural domain, cognitive domain, and constructive domain can be addressed. A few examples have been mentioned in the following table.

Domain of Knowledge	General Learning Tasks generally used	Contents in Self Learning Materials
Behavioural	Memorising Undertaking field work Learning arbitrary information Learning rule systems Invariable (Routine) learning procedures	Social work involves both theory and practice. Thus certain theoretical propositions and field work experience is to be combined in the learning process.
Cognitive	Classifying Concept learning Problem-solving Procedures Reasoning and argument Rules	There is ample scope in this domain of knowledge. Most of the theories in social work are practise-based. Certain portion of the syllabi is also quantitative-based, and hence offers scope for the development of problem solving abilities.
Constructive	Case Studies Complex Situations Real-world Problem-solving	Certain real-world situations are included in the course. For example, in the discussion of theories related to case work, group work, students are advised to draw evidences from real world situations.

Second	6200.00
Third	6200.00
Fourth	7100.00
Total	26000.00

6.5 Financial Assistance:

The University offers free education to jail inmates and different abled learners. At present, the University offers free of cost education to jail inmates in 13 district jails of the state. The University is in the process of adding more of central/district jails in the Academic Session 2018-19.

6.6 Refusal/Cancellation of Admission:

Notwithstanding, anything contained in the prospectus, the University reserves the right to refuse/cancel admission of any candidate.

6.7 Curriculum Transaction and Activity Planner:

An activity planner that guides the overall academic activities in the MSW shall be made available prior to the admission schedule of the University. The newly constituted CIQA office as per UGC guidelines and the office of the Academic Dean would upload the

Academic Plan and month wise Academic Calendar to enable the learners to plan their studies and activities accordingly.

6.8 Evaluation

- i. The University adopts both ongoing and term end evaluation. Ongoing evaluation is conducted in two modes: internal and external. The internal evaluation is to be undertaken by the learner himself. For this, the University would design some Check Your Progress questions in the SLMs to be prepared, which would help the learners to self-check his or her progress of study. However, this is undertaken at the learners' end themselves and is non-credit based. For overall evaluation of a course, the University follows the two types of evaluation:

Continuous Evaluation (Assignments) : Weightage assigned 20%.

Term End Evaluation (Semester-end Examinations) : Weightage assigned 80%.
- ii. The learners have to submit the assignments within the schedule of a semester at the respective study centres. The counsellors at the study centres evaluate the assignments and return them to the learners with feedback.
- iii. Term end examinations are conducted on scheduled dates at selected examinations centres. Evaluations are done by the external examiners at zonal centres. After evaluation, further scrutiny is done, followed by moderation. Results are declared within scheduled dates as laid down in the Activity Planner.
- iv. Learners would be able to get their scripts re-evaluated if they are not satisfied with evaluation.

9. QUALITY ASSURANCE MECHANISM AND EXPECTED PROGRAMME OUTCOMES:

9.1 Quality Assurance Mechanism: With regard to the quality concerns of the course materials, the department is involved in the following activities:

- i. The programme design and structure is decided upon after a series of discussions and deliberations with a team of a few carefully chosen subject experts, who are mostly eminent scholars and professionals from the reputed institutions of higher education. Formed with due approval from the University authority, this expert Committee is helped by the in-house department faculties while preparing the framework of the programme.
- ii. The next step after the completion of the framework preparation is the allotment of the assigned courses or papers (each of which is again composed of 15 units) to the assigned authors. The in-house faculties prepare a carefully chosen list of authors for the task. The in-house faculties also contribute their writings, besides the outsourced authors, who are mostly research scholars and faculty members from higher educational institutions.
- iii. The content editors are then roped in for the next round. The content editors, who are mostly academics from reputed higher educational institutions, look into the contents of the units and provide their suggestions and feedbacks to be included by the coordinator of the programme.
- iv. The materials are sent to the Language Editor, who then looks into the contents and give their necessary suggestions to be incorporated by the coordinator of the particular programme. The next step is that of printing and distributing the SLMs to the respective study centres. Arrangements would be made to distribute the SLMs to the learners at the time of admission.
- v. Field work of MSW learners is to be monitored and evaluated by the study centre counsellors based on the field work reports submitted and a viva-voce (each semester).
- vi. The newly constituted CIQA Office has already initiated to conduct stakeholders' meetings and plans to conduct SLM and Counselling Workshops which are expected to provide the University and the Department with required inputs for quality enhancement.
- vii. In order to keep the programme updated, the programme would be revised and necessary changes would be incorporated for the benefit of the learners, based on the inputs received from the mechanism as mentioned above.

9.2 Expected Programme Outcomes:

- i. It is expected that the course would mould the learners to emerge as professional social workers equipped with the required skills and knowledge to deal with real-world situations.
